1 REVISIONS - REB 551 2

1 REVISIONS - REB 551

The following documents are changed in User´s guide for REB 551, version 1.21, compared to version 1.2:

- Terminal identification, 1MDX80018-EN
- Configuration logic circuits, 1MRK 580 022-XEN
- Restricted settings via man machine interface, 1MRK 580 095-XEN
- Breaker failure protection, 1MRK 580 009-XEN
- Synchronism and energizing check, 1MDX80017-EN
- Pole discordance, 1MDX80072-EN
- System supervision overload, 1MDX80073-EN
- Fuse failure supervision functions, 1MDX80019-EN
- CT supervision, 1MRK 580 192-XEN
- Tripping logic - REB 551, 1MDX80074-EN
- Autoreclosing for multi breaker application, 1MDX80068-EN
- Voltage selection, 1MDX80076-EN
- Loss of power system voltage
- Simulation logic, 1MRK 580 077-XEN
- Disturbance report - Introduction, 1MRK 580 028-XEN
- Disturbance report - settings, 1MRK 580 029-XEN
- Time synchronisation, 1MRK 580 030-XEN
- Fault locator and phasors of currents and voltages, 1MDX80020-EN
- Remote communication, 1MRK 580 035-XEN
