## ACS601/611 Frequency Converters

### 1. CURRENT LIFE CYCLE STATUS

The ACS601/611 drive product has been in the obsolete phase since 1.1.2014 according to the ABB Life cycle model outlined below.

### 2. SUPPORT AVAILABILITY

During the obsolete phase ABB cannot guarantee availability of services within reasonable cost or technically.

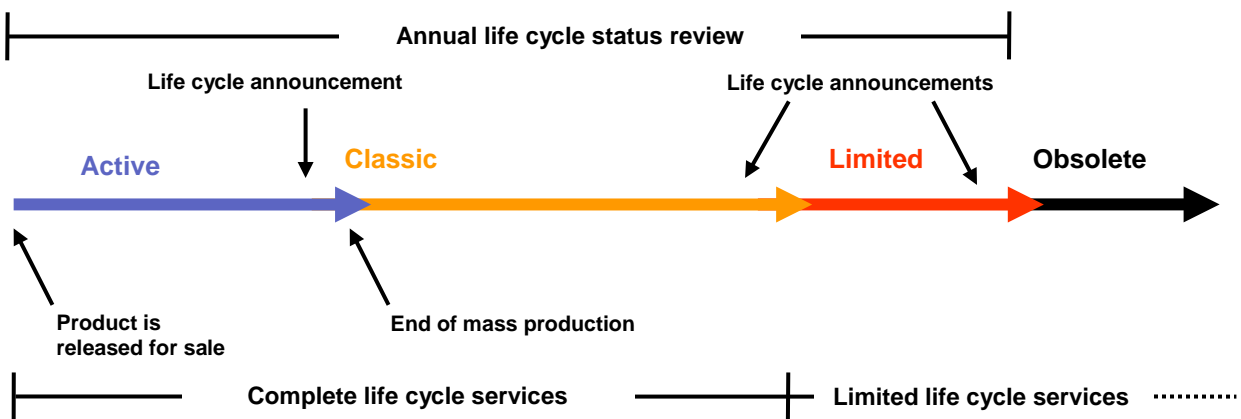

### 3. RECOMMENDED ACTION

It is recommended that the ACS601/611 frequency converter will be replaced with other ABB frequency converters like ACS800-01 or ACS880-01.

### 4. FURTHER INFORMATION

For more information on drives life cycle management and available services contact your local ABB organization or at <http://www.abb.com/drivesservices>.

### 5. ABB LIFE CYCLE MODEL

Specifications subject to change without notice.
