Training objective
In this product training you are trained on safe operation and testing of field control devices as well as their programming. An effective training is ensured by small group sizes.

Participant profile
This training is targeted to Operators, Engineers in operations and Programming engineers.

Prerequisites
- extended knowledge of English language in reading and writing as well as technical terminology
- electromechanical education (Technician, Engineer)
- professional experience in handling electrical equipment over several years preferable
- basic knowledge in medium Voltage technology
- Basic knowledge in digital logic, switchgear inter-locking and protection conception

Instruction contents
- Basic functionalities of REF542plus
- Hardware- and software options
- Operation, optional functions
- Configuration software
- Project-related Programming
- Optimal use of the function plan (FUPLA)
- Practical Training:
  - FUPLA up- and download
  - FUPLA creating and checking
  - Error recognition and description, if possible analyze

Your benefit
- Product knowledge
- Hands on training
- Increased efficiency
- Know-how enlargement
- Individual support/ troubleshooting
- Training material

General
- duration 3 days
- structure 50% Theory
- 50% Practice
- group size max. 8 participants
- individualization booking of individual modules is possible
- location ABB Trainings Center Oberhausener Strasse 33 40472 Ratingen, Germany
