Type VOG-11
Outdoor voltage transformer

Product features
- 15 kV outdoor
- 110 kV BIL, 60 Hertz
- Primary volts: 7200 - 8400
- Electrical clearances:
  Strike: 8.66" (220 mm)
  Creep: 17.75" (451 mm)

Application
The VOG-11 outdoor voltage transformer is designed for metering line-to-ground circuits. The single centered bushing and reduced neutral end insulation permit a significant reduction in size and installation spacing, while maintaining full 110 kV BIL insulation clearances.

Construction features
The primary and secondary coils are wound using special winding and shielding techniques for improved voltage stress distribution. The entire core and coil assembly is cast in polyurethane under a vacuum.

Terminals
The primary line terminals are electro-tin plated copper and accommodate #10 to 250 MCM conductors. The H2 neutral terminal is insulated to withstand a 10 kV test level and can be disconnected from the external ground cable for power factor measurement.

Secondary terminals are clamp-type and sized for #14 through #3 wire. A ground terminal is also provided for grounding the secondary circuit at the transformer.

Junction box
The junction box is provided with 1" pipe thread conduit hubs on each end and a knock-out for fitting a conduit connection from the bottom. It may be detached for ease of installation and changeout procedures.

Baseplate
The base is constructed of corrosion-resistant aluminum and is secured to the encapsulated base support.

Mounting
The VOG-11 can be mounted in upright, cantilever, or upside-down positions. Stress relief devices should be used to support cable connections.

Test reports
IEEE test reports are stored electronically and can be e-mailed in various formats at the time of shipment.

Standards
This unit can be tested to all applicable IEEE, CSA, or IEC standards as requested.

Optional accessories
- Vertical mounting with mounting brackets & back-up plates:
  Mounting bracket: 463C035G02
  Back-up plate: 28D2876G01
- Vertical mounting with mounting brackets and hangers:
  Mounting bracket: 463C035G02
  Hangers: 261A233G01
- Vertical mounting with channel brackets for tandem mounting of voltage and current transformers:
  Channel bracket: 332B955G02
- Horizontal mounting with hangers:
  Hangers: 261A233G01
