PRODUCT LIFE CYCLE CHANGE ANNOUNCEMENT

ACS6000c air-cooled (AMC34)

The ABB life cycle management model is designed to manage an orderly transition to new replacement products or to choose from various lifetime extending services. At the same time the model ensures access to continuing support for our customers.

Current life cycle status
The mentioned product subtype of ACS6000c drive is in the Classic life cycle phase according to the ABB life cycle model outlined above.

Sales of ACS6000c air-cooled (AMC34) is stopped.

Life cycle plan
It is planned to keep the mentioned product subtype in the Classic life cycle phase until 2034-12-31, after which it will be transferred to Limited life cycle phase.

The ABB life cycle management model is designed to manage an orderly transition to new replacement products or to choose from various lifetime extending services. At the same time, the model ensures access to continuing support for our customers.

Recommended actions
Besides the regular maintenance no actions are required. Full range of life cycle services and support are available during the Classic phase.

Product availability in Classic life cycle phase
This replacement product subtype is no longer available for sales.
