Electrification Products

What we do in Memphis

Memphis is the North American headquarters for ABB's Electrification Products division and the global headquarters for ABB's Installation Products business. ABB's Electrification Products division provides a wide variety of electrical equipment and components that safely and reliably electrify homes, businesses, transportation, utilities, and industry. ABB's technology and equipment connects, protects, and optimizes electricity from power generation to the outlet.

Who we serve

Our customers range from electricians and builders of homes and public infrastructure to industrial and commercial manufacturers and utilities. Many of our

products can be purchased at local hardware stores nationwide, as well as through electrical distributors.

ABB in the U.S.

ABB is a pioneering technology leader that works closely with utility, industry, transportation and infrastructure customers to write the future of industrial digitalization, increasing productivity and boosting efficiency.
