Peter Terwiesch
President, Process Automation division and Member of the Executive Committee, ABB

Dr. Peter Terwiesch joined ABB in 1994 in Corporate Research, where he held local and global responsibilities in R&D and management.

In 2001, he was promoted to Chief Technology Officer (CTO) for Process Industries business and then for Automation Technologies division. In parallel, he served as local division manager and company president for the Process Automation businesses in Switzerland and Germany, respectively. From 2005-2011, he served as the CTO of the ABB Group.

Prior to being appointed President of the Process Automation division in January 2015, Peter was based in Mannheim, Germany where he led ABB's Central Europe Region and was also Country Manager for ABB in Germany from 2011 until 2014.

Peter received his doctorate degree at the Swiss Federal Institute of Technology (ETH) in Zurich, where he also later served as a lecturer for Applied Nonlinear Control. Both during his time at ETH and at ABB, Peter has been the author of numerous scientific publications and patents.
