Did you know?

The thermal transfer technology principle is using the heat to transfer characters or symbols onto a plastic marker through an ink ribbon.

Besides the excellent printing quality, there is no drying time and the markers are instantly usable.

With HTP500 V2 thermal transfer printer forget about drying time and clogged printing heads problems.
The HTP500 V2 printer is equipped with a cleaning tape. It cleans the media before printing to ensure best printing quality.

The feeder allows printing of series of markers. It can be loaded with up to 64 marker cards.

The HTP500 kit (Ref. 1SNA235700R1500) contains:
- Thermal transfer printer HTP500 V2
- Support table
- Universal feeder for marker cards
- Support plate for terminal block markers
- Support plate for cable and wire markers
- Black ribbon cassette
- Cleaning tape cassette
- Power cable
- USB cable adapter
- Software on CD
- Installation and user guide.
