Course description

G3911e
ACS580 standard control program specific features, Internet course

Course type
Internet course

Course Duration
The course duration is approximately 15 minutes.

Course Goal
The goal of this course is for you to familiarize yourself with the software features specific to the ACS580 standard control program.

Student Profile
This course is intended for people who use the software of ACS580 drives, such as electricians, technicians and engineers.

Prerequisites
- G391e – General purpose drives ACS580 series offering, Internet course
- G3902e – ACS580 software features, advantages and benefits, Internet course
- Recommended: G374e – All-compatible panel fundamentals, Internet course
- Recommended: G375e – Drive composer entry fundamentals, Internet course
- An Internet connection. The recommended browser is Microsoft Internet Explorer.

Course Objectives
Upon completion of this course, you will be able to:
- Describe the basics of the standard drive firmware
- Describe the features of the different menus
- Describe the benefits of the motor control functions

Main Topics
- Different control units
- Features of the different menus
- Motor control functions

Notes
If you have no experience of working with drives, it is highly recommended to take a hands-on course in addition to this course, to be able to utilize the drive to its full potential.
