## Current life cycle status

The ACS600 water cooled drives are in the Classic phase since 1.4.2007, according to the ABB life cycle model outlined above.

## Life cycle plan

It is planned to keep ACS600 water cooled drives in the Classic phase at least until the end of 2021, after which it will be transferred to Limited phase.

The ABB life cycle management model is designed to manage an orderly transition to new replacement products or to choose from various lifetime extending services. At the same time the model ensures access to continuing support for our customers.

## Recommended actions

No actions are required. Full range of life cycle services and support are available during the Classic phase.

## Further information
