

The simplest way to a smart building

ABB Ability™ Building Ecosystem

A better building starts with one smart step

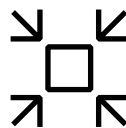

Access a dynamic and holistic suite of solutions brought together in one ecosystem to help make your building smart, safe and sustainable

BE Sustainable with Active Energy

Energy management made easy

- **Data analytics:** Organize and compare data to examine usage, emissions and costs
- **Predictive targets:** Understand expected versus actual usage and track progress
- **User-friendly:** Intuitive digital interface that's easy to learn and use

BE Space Efficient with Meeting Rooms

Achieve better health and safety outcomes

- **Healthy occupants:** Condition the environment to match meeting rooms usage through algorithms
- **Safety first:** Help reduce spread of infection and comply with regulations
- **Prioritized cleaning:** Prioritize cleaning and sanitization of heavily-used spaced with timely alters
- **Acclimatized rooms:** Preheat or pre-cool the space to ensure optimal temperature
