Blackburn Mechanical Catalog
High-conductivity copper terminals with corrosion-resistant plating
- Include marked stud and wire sizes
- Long chamfered barrel to eliminate missed crimps
- Deep internal serration to produce a larger contact area
- UL / imperial portfolio

Faster, simpler and safer ground grid system installations
- Low cost, code-approved alternative to welded ground grid connections
- Safely installed in half the time, with fewer components, and in all weather conditions
- Easy to install - no special training
- Minimize possibility of poor connections

Complete tool portfolio includes
- Wire cutters, strippers, crimping tools
- Hand tools for any application
- Battery Powered tools from 6-Ton to 15-Ton
- Hydraulic operated table top tools available
- Tools for lugs, terminals and Ty-Rap products
