5601 E. Highland Dr
Jonesboro, AR
72401

Offering
Electrical Wiring &
Cable Management

Number of employees
324

Operational since
1994

What we do in Jonesboro

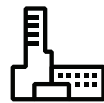

Design and manufacture wiring and cable management equipment for corrosive, industrial, and infrastructure environments as well as for homes and buildings. Our products are used by manufacturers and electrical contractors to ensure safe electrical connections in the toughest environments.

Who we serve

ABB's Ocal® corrosive resistant conduits protect wiring in food processing plants, wastewater treatment plants and oil and gas wells and refineries. Similarly, our Liquidtight Systems™ protect metal cabling in subways and tunnels and electrical wiring in pharmaceutical and sterile facilities, where hygiene is paramount and equipment must be washed down. Our Carlon® fittings and elbows are available in hardware stores nationwide to ensure reliable and safe electrical systems in homes and businesses.

ABB in the U.S.

ABB is a leading global technology company that energizes the transformation of society and industry to achieve a more productive, sustainable future.
