# ABB EasyOrder

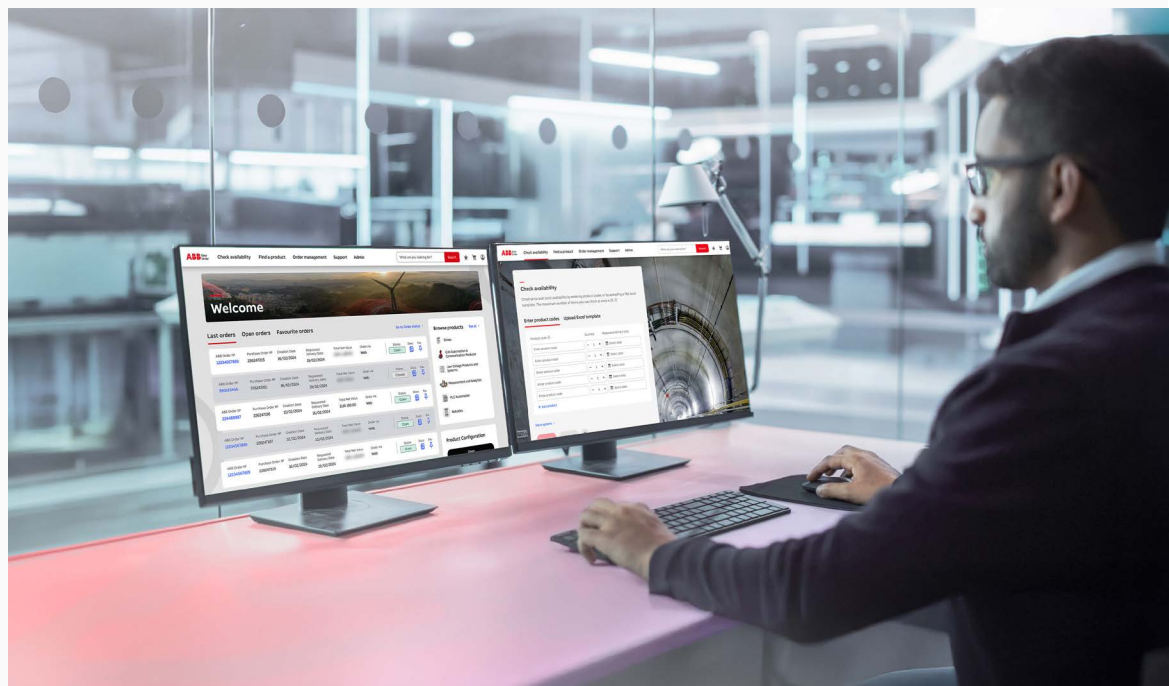

## Your digital access to the ABB Electrification portfolio.

Go to the website  
Scan the QR code  
or just click the link

ABB EasyOrder is a digital tool designed to simplify the entire ordering process for products from the ABB Electrification portfolio – from selection to delivery.

- Save time
- Simplify processes
- Gain transparency

### All-in-one platform

Access ABB's Low and Medium Voltage portfolio in a single all-in-one platform. ABB EasyOrder makes product selection and comparison easier than ever: intuitive, fast, and centralized. No switching between tools, no searching across multiple pages – everything you need, all in one place.

### Stay in Control of Every Order

ABB EasyOrder guides you through the entire ordering process – structured, clear, and efficient. Whether it's product search, price checks, order status, or documents – you always have full access to all relevant information.

### Ordering Made Effortless

ABB EasyOrder minimizes manual steps: with saved shopping lists, direct reordering, and real-time availability and pricing, you can complete orders quickly and easily.

At the same time, internal workflows become more transparent and easier to coordinate – for smooth team collaboration and greater efficiency throughout the process.
