**Products types concerned**

**Product types**
- ACS800-X04 modules, air-cooled
- ACS800-X07 multidrives, air-cooled

**Current life cycle status**

The ACS800 multidrives, air-cooled are in the Classic phase since 1.7.2017, according to the ABB life cycle model outlined above.

**Life cycle plan**

It is planned to keep the above listed product types in Classic phase until the end of 2029.

The ABB life cycle management model is designed to manage an orderly transition to new replacement products or to choose from various lifetime extending services. At the same time the model ensures access to continuing support for our customers.

**Recommended actions**

No actions are required. Full range of life cycle services and support are available during the Classic phase.

**Further information**

For more information on drives life cycle management and available services contact your local ABB organization or at www.abb.com/drives.

**Product availability in Classic phase**

During the Classic phase new modules are available as spare parts for the following product types, until further notice:

<table>
