Supplementary Information
3KXL321001R3901 Rev. E

Driver LLT100 HART Level
Laser Level Transmitter

Content

1 Device – Revision Record – What is new? .......................... 1
  1.1 Hardware ................................................................. 1
  1.2 Device (latest SW compatibility status) ......................... 1
  1.3 Supported devices .................................................... 1
  1.4 Licensing ............................................................... 1

2 DTM (Device Type Manager) ........................................... 1
  2.1 DTM (driver) Version record – What is new? .................... 1
  2.2 Supported Languages ............................................... 1
  2.3 Requirements .......................................................... 2
  2.3.1 PC-Hardware, Operating system ............................... 2
  2.3.2 Frame application / compatibility ............................. 2
  2.4 Installation and configuration ..................................... 2
  2.4.1 Installation ............................................................ 2
  2.4.2 Uninstall instructions .............................................. 2
  2.5 Update-/ Upgrade instructions .................................... 2
  2.6 Known problems and limitations .................................. 2
  2.7 Getting help / further information ............................... 2
  2.8 How to get the latest information & software? ............... 2

3 EDD (Electronic Device Description) ............................. 2
  3.1 EDD Version record - What is new? ............................... 2
  3.2 Supported Languages ............................................... 2
  3.3 Requirements .......................................................... 2
  3.4 (Un)Installation and configuration ................................ 2
  3.5 Known problems and limitations .................................. 2
  3.6 Getting help / further information ............................... 2
  3.7 How to get the latest information & software? ............... 2

4 FDI (Field Device Integration) ......................................... 3
  4.1 FDI Device Package Version record - What is new? .......... 3
  4.2 Supported Languages ............................................... 3
  4.3 Requirements .......................................................... 3
  4.4 Import / remove and configuration ................................ 3
  4.5 Update-/ Upgrade instructions .................................... 3
  4.6 Known problems and limitations .................................. 3
  4.7 Getting help / further information ............................... 3
  4.8 How to get the latest information & software? ............... 3

1 Device – Revision Record – What is new?

1.1 Hardware

<table>
<thead>
<tr>
<th>Released Revision</th>
<th>Released Date</th>
<th>Remarks</th>
</tr>
</thead>
<tbody>
<tr>
<td>00.00.00</td>
<td>July 2016</td>
<td>First release</td>
</tr>
</tbody>
</table>

1.2 Device (latest SW compatibility status)

<table>
<thead>
<tr>
<th>Released Revision</th>
<th>Released Date</th>
<th>Remarks</th>
</tr>
</thead>
<tbody>
<tr>
<td>01 July 2016</td>
<td></td>
<td>First release HART 7</td>
</tr>
<tr>
<td>02 July 2016</td>
<td></td>
<td>First release HART 7</td>
</tr>
</tbody>
</table>

1.3 Supported devices

- Laser Level Transmitter LLT100

1.4 Licensing

The “General terms of license for computer software utilization” are valid, which can be found by searching on abb.com

2 DTM (Device Type Manager)

2.1 DTM (driver) Version record – What is new?

<table>
<thead>
<tr>
<th>Released Driver Version</th>
<th>Released Date</th>
<th>Released bundle / Library Version</th>
<th>Remarks</th>
</tr>
</thead>
<tbody>
<tr>
<td>05.00.00</td>
<td>July 2016</td>
<td>≥ 05.05.00 / ≥ 05.00.21</td>
<td>First release Part of the DTM500 Bundle</td>
</tr>
<tr>
<td>05.00.01</td>
<td>April 2017</td>
<td>≥ 05.05.00 / ≥ 05.00.22</td>
<td>Bug fix</td>
</tr>
<tr>
<td>05.00.03</td>
<td>July 2018</td>
<td>≥ 05.05.00 / ≥ 05.00.22</td>
<td>Bug fix</td>
</tr>
</tbody>
</table>

- The device DTM supports the standard FDT 1.2 / 1.2.1.

2.2 Supported Languages

The device DTM supports English.
2.3 Requirements
2.3.1 PC-Hardware, Operating system
See DTM500 Bundle Supplement Info*)

2.3.2 Frame application / compatibility
See DTM500 Bundle Supplement Info*)

2.4 Installation and configuration
2.4.1 Installation
See DTM500 Bundle Supplement Info*)

2.4.2 Uninstall instructions
See DTM500 Bundle Supplement Info*)

2.5 Update- / Upgrade instructions
See DTM500 Bundle Supplement Info*)

2.6 Known problems and limitations
Additionally to the common hints in the DTM500 Bundle Supplement Info*) attached the device driver specific hints.

2.7 Getting help / further information
Press ‘F1’ for DTM online help. Help concerning the integration of the DTM in the FDT frame application can be found in the respective documentation of the application.

2.8 How to get the latest information & software?
The latest device driver Supplement Info & software (driver) is available on www.abb.com/measurement

3 EDD (Electronic Device Description)
3.1 EDD Version record - What is new?

<table>
<thead>
<tr>
<th>Released Version</th>
<th>Released Date</th>
<th>Remarks</th>
</tr>
</thead>
<tbody>
<tr>
<td>01 01</td>
<td>July 2016</td>
<td>First release (General EDD)</td>
</tr>
<tr>
<td>02 01</td>
<td>May 2018</td>
<td>First release (General EDD)</td>
</tr>
</tbody>
</table>

3.2 Supported Languages
The device EDD supports English.

3.3 Requirements
Compatible to IEC61804-3, -4, -5 Electronic Device Description Language (EDDL)

3.4 (Un)Installation and configuration
Start your EDD Host application and follow the instructions.

3.5 Known problems and limitations
None known

3.6 Getting help / further information
Help concerning the integration of the driver in the EDD Host application can be found in the respective documentation of the application. Use mouse over for field hints and tooltips.

3.7 How to get the latest information & software?
The latest device driver Supplement Info & software (driver) is available on www.abb.com/measurement
4 FDI (Field Device Integration)
FDI Package (EDD based)

4.1 FDI Device Package Version record - What is new?

<table>
<thead>
<tr>
<th>Released Date</th>
<th>Package Version</th>
<th>EDD Released Version (Dev Rev)</th>
<th>Attachment (revision)</th>
<th>UIP Released Version (00.00.00)</th>
<th>UIP Changed UIP file count</th>
<th>Remarks (EDD. Attachment, UIP)</th>
</tr>
</thead>
<tbody>
<tr>
<td>August 2016</td>
<td>01.00.00</td>
<td>01 02</td>
<td>LLT100_256x256, ABB_256x256 OI_LLT_EN_Rev_B</td>
<td>none</td>
<td>no</td>
<td>First release in October 2016</td>
</tr>
<tr>
<td>Feb. 2018</td>
<td>02.00.00</td>
<td>02 01</td>
<td>LLT100_256x256, ABB_256x256 OI_LLT_EN_Rev_B</td>
<td>none</td>
<td>no</td>
<td>Bug Fix</td>
</tr>
</tbody>
</table>

4.2 Supported Languages
The device Package supports English.

4.3 Requirements
FDI Technology Version 1.x.x

4.4 Import / remove and configuration
Start your EDD Host application and follow the instructions.

4.5 Update- / Upgrade instructions

4.6 Known problems and limitations
None known

4.7 Getting help / further information
Help concerning the integration of the Package in the FDI frame application can be found in the respective documentation of the frame application.
Use mouse over for field hints and tooltips.

4.8 How to get the latest information & software?
- The latest device driver Supplement Info & software (driver) is available on www.abb.com/measurement.
ABB has Sales & Customer Support expertise in over 100 countries worldwide.
