

## Billerud Ab, Gruvön Mill Recovery Boiler T5

### Mill description

Billerud AB has three production facilities in Sweden: Gruvön (previously Stora Enso), Karlsborg and Skärblacka, with its headquarters in Stockholm. They employ 2,400 employees in total.

Billerud has an annual production capacity of 1.3 million tons of pulp and paper, and is a leading European manufacturer of MG/MF kraft paper and sack paper. The company is also a well established supplier of containerboard and market pulp.

The Gruvön mill, located in Värmland county, includes three pulp lines, six paper machines, a coating machine and two flash driers for market pulp. The mill produces sack and kraft paper, containerboard and market pulp. In recent years investments have been made in new production equipment, including a new recovery boiler and an evaporation plant.

### Recovery Boiler T5

Start-up April 2000

### Contract Partner

Kvaerner Pulping Oy

3BFL 730011 R0201 / 25.8.2010

### ABB Scope of supply

#### The Composite Plant delivery included:

- Electrical, instrumentation and automation engineering and supplies
- Installation, start-up and training
- Project management

#### Equipment and Systems:

- Low voltage switchgear
- Distribution transformers
- Single variable speed drives
- Uninterruptible power supply (UPS)
- Motors
- Automation system (DCS)
- Instrumentation

### Composite Plant Benefits

- Single source supplier
- Professional project management
- Integrated products and systems
- Comprehensive services
- Local & global ABB resources
- Local and global ABB resources
