
ABB's Ekip UP helps fashion supplier introduce smarter power

APPLICATION

Textiles plant, Fashion

COUNTRY / CUSTOMER / SITE

Italy / The Printing House of Martinengo

CUSTOMER NEEDS

Upgrade to support the digitization of industrial processes with data capture and analysis of power quality and consumption. The customer wanted to make its power infrastructure more intelligent and connected while preserving the site's original switchgear and circuit breakers

SOLUTION

- ABB Ekip UP retrofit devices provide simple, effective upgrade
- Future-proof solution, connecting all devices into EDCS
