e-Design. Everyone has a project. We have the solution to make it happen.

e-Design is the new engineering software suite offered by ABB to meet the needs of electrical system professionals operating in a complex and fast changing market.

Professional users

**FUNCTIONALITIES**

1. **ELECTRICAL SYSTEM DIMENSIONING**
   - Professional users
   - ELECTRICAL SYSTEM
   - DIMENSIONING

2. **SWITCHBOARD CONFIGURATION AND ENGINEERING**
   - Professional users
   - SWITCHBOARD
   - CONFIGURATION
   - AND ENGINEERING

3. **DEVICE SELECTION AND CONFIGURATION**
   - Professional users
   - DEVICE
   - SELECTION
   - AND
   - CONFIGURATION

4. **ESTIMATING MODULE**
   - Professional users
   - ESTIMATING
   - MODULE

**ADVANTAGES**

- **FLEXIBILITY**
  - 4 interconnected modules accessible during all stages of the project

- **SPEED**
  - Ability to learn, update and save product and switchboard configurations

- **SIMPlicity**
  - Guided configuration of switchboards and products
