
ABB provides Qinghai Plateau environmental protection project with digital upgrade solution

APPLICATION

Biochemical

COUNTRY / CUSTOMER / SITE

China / Qinghai Plateau Difeng Fertilizer Co., Ltd

CUSTOMER NEEDS

Like many facilities, measurement and monitoring functions were not built into the original plant design. With substations scattered across different locations, for upgrades to be viable, the work needed to be fast and fault-free. ABB's digital expertise and retrofit devices made upgrades possible

SOLUTION

- ABB Ability EDCS
- ABB Ekip UP digital units
- Future-proof solution, connecting all ABB devices into EDCS
