**Line Coupler, MDRC**

The Line Coupler LK/S 4.2 electrically isolates lines/areas from one another. With an activated filter table, it only allows data telegrams through which are intended for bus devices on other lines. The device can be parameterized as a line or area coupler as well as a line repeater using ETS software. With ETS version 4.1.2 or higher, the entire group address range (main group 0…13 and 14…31) can be filtered.

**Operating and display elements**

- LED, green: ON
- LED, yellow: Main line
- LED, yellow: Line

**Connection**

- Main line: Bus connection terminal
- Line: Bus connection terminal

**Type of protection**

- IP 20, EN 60 529

**Installation**

- on 35 mm mounting rail, DIN EN 60 715

**Width**

- 2 modules at 18 mm

**Manufacturer**

- ABB

**Type**

- LK/S 4.2

**Material**: 

- Labour:
