

EXPLOSION-PROOF SOLUTIONS

# Is your installation code compliant?

Look for the label.

**Ocal**<sup>®</sup>

Meet the latest standards from NEC Article 500.8(C). You can feel confident with Ocal<sup>®</sup> explosion-proof products — UL 1203 certified after the PVC coating is applied — to meet the requirements of classified hazardous locations.

**Projects that often require explosion-proof products include:**

- Water/wastewater treatment facilities
- Industrial manufacturing plants
- Petrochemical facilities
- Municipal buildings

**National Electrical Code 2023, Article 500.8(C)**

NEC 2023 Article 500.8(C) states that equipment must be marked to indicate the explosive environment for which it was evaluated.

All Ocal products that are UL 1203 listed for explosion protection comply with this NEC requirement with a bright red, can't-miss label that shows you the product's exact classifications.
