Product type ACS800 based on ACS600 multidrive hardware

Full range of life cycle services and support
Limited range of life cycle services and support
Replacement and end-of-life services

Product types concerned
Rating plate is labelled ACS800 but construction is based on ACS600 multidrive, air-cooled hardware and ACS800 control hardware (RMIO) and software. Products were manufactured during 2002-2004.

Current life cycle status
The product follows the life cycle of ACS600 multidrive, air-cooled, which is in the Classic phase since 1.1.2004, according to the ABB life cycle model outlined above.

Life cycle plan
It is planned to keep the product in Classic phase at least until the end of 2021, after which it will be transferred to Limited phase.

The ABB life cycle management model is designed to manage an orderly transition to new replacement products or to choose from various lifetime extending services. At the same time the model ensures access to continuing support for our customers.

Recommended actions
No actions are required. Full range of life cycle services and support are available during the Classic phase.
