Course description

G1521
ACS800 single drive introduction

Course duration
The course duration is 1 day.

Course type
Introductory classroom course on ACS800 single drive and basic hands-on.

Course goal
The goal of this course is to introduce ACS800 single drive to course participant.

After the course, participant can do basic operations using a control panel and is able to use DriveWindow PC tool.

The training covers the following types and constructs:
- ACS800-01
- ACS800-02

Student profile
This course is intended for electricians who operate ACS800 single drives and need only basic knowledge of the drive functions.

For participants who also need installation, programming, fine tuning and maintenance skills the following course series is recommended:
G152e (internet course) + G152 (2d, hands-on course).

Prerequisites
- Basic knowledge of electronics
- Experience in using a Windows PC

Description
This course contains basic information about the ACS800 single drives and basic parameter settings.

Course objectives
Upon completion of this course, students will be able to:
- Recognise ACS800 Drives
- Use ACS800 control panel
- Use DriveWindow PC tool for basic operations

Main topics
- Hardware and application overview
- Installation principles
- Control panel functions
- DriveWindow commissioning and maintenance tool operations
Agenda
G1521
ACS800 single drive introduction

Day Program

09:00 Course information
09:15 ACS800 product specification
10:30 Coffee break
10:45 ACS800 installation and operation
11:00 Exercise 1 starts
12:00 Lunch
12:45 Exercise 1 continues
14:15 Exercise 1 ends + coffee break
14:30 Exercise 2 starts
15:45 Exercise 2 ends
16:00 End of the day

Note!
Day program times are estimates and may vary +/− 20 min.

Exercises on this course:

- Basic panel operation and start-up
- DriveWindow PC tool
