**Current life cycle status**

The mentioned product sub-type of MEGADRIVE-LCI drive is in the Classic phase since 1.7.2017 according to the ABB life cycle model outlined above.

**Life cycle plan**

It is planned to keep the mentioned product sub-type in Classic phase at least until the end of 2027, after which it will be transferred to Limited phase.

The ABB life cycle management model is designed to manage an orderly transition to new replacement products or to choose from various lifetime extending services. At the same time the model ensures access to continuing support for our customers.

**Recommended actions**

In Classic phase complete life cycle services are available for the mentioned product sub-type. Besides the regular maintenance it is recommended to check the possibility for Option Upgrade service in order to respond to specific customer needs and/or changed process requirements.

**Further information**

For more information on drives life cycle management and available services contact your local ABB organization or at www.abb.com/drives.
