### Function supported

- Local and remote phase currents (protection co-ordinated)
- Pilot wire support
- High harmonic protection

### Data recorders

- DFR DR RDRE Disturbance recorder
- V1, V2, V0 U1, U2, U0 VSMSQI Voltage sequence components
- I1, I2, I0 I1, I2, I0 CSMSQI Current sequence components

### Segment

- High Range

### Protection relay selection table

### Mark needed functions with "x"

- Auto Synchronization
- Transformer protection - 2 winding
- Digital inputs
- High-speed Power outputs (option)
- RTD/mA inputs (option)
