

# Enhancing energy efficiency without risking plant reliability.

ABB drives, high-efficiency motors and PLCs bring the best energy efficiency, control and reliability out of any motor-driven application such as pump, fan, conveyor,

[www.abb.com](http://www.abb.com)

compressor, mixer, centrifuge or extruder used in the chemical, oil and gas industry. ABB's products and services can reduce your energy bill by up to 50%

without compromising uptime or safety. To enhance a plant's productivity, call ABB.
