

From source to socket, no one provides more solar solutions

Solar energy plays an important role in answering the world's need for more power with less impact on the environment. ABB offers the industry's most comprehensive portfolio of products, systems, solutions and services to optimize the performance, reliability and return on investment of any solar installation – from residential rooftops to commercial applications and utility-grade power plants. With a proven track record in solar since the 1990s and our expertise in technology areas from solar power systems to grid connection and integration to smart grids and microgrids, no one provides more solar solutions from source to socket around the world than ABB.
