Underground distribution

HOMAC

**Thomas & Betts is now ABB
Installation Products, but our long
legacy of quality products and
innovation remains the same. From
connectors that help wire buildings
on Earth to cable ties that help put
machines in space, we continue to
work every day to make, market,
design and sell products that
provide a smarter, safer and more
reliable flow of electricity, from
source to socket.**

Table of contents

004–020	Stud-mount transformer connectors
021–032	Pad-mount transformer connectors

Stud-mount transformer connectors

Aluminum universal quick-disconnect transformer connectors

The EZ mount connector is used on padmount distribution transformers that have a 5/8" or 1" secondary bushing stud – one mounting hole accepts both sizes of studs without repositioning the connector.

- Quick-disconnect connectors are easy to install or remove
- Dual-rated to accept aluminum or copper conductors
- Provides a wide cable range
- Clear slide-on PVC insulating cover on EZC series enables safe and time-saving installations and disconnects
- Meets or exceeds ANSI C119.4 specifications
- RUS Accepted

—

EZC series insulated in-line bar

Cat. no.	Cable range (AWG or kcmil)	Outlets	Length (in.)	Stud size (in.)
EZC 4350 SL	#12–350, S/L #14–#2	4	6¾	5/8 & 1
EZC 6350 SL		6	8¾	
EZC 8350 SL		8	10¾	
EZC 4500 SL	#6–500, S/L #14–#2	4	6¾	
EZC 6500 SL		6	8¾	
EZC 8500 SL		8	10¾	
EZC 8750 SL*	1/0–750, S/L #14–#2	8	12⅞	

* Two set-screws per outlet.
Note: For oxide-inhibitor option, add “-C” suffix to the catalog number.
For additional sizes, please consult your ABB representative.
For a single-phase kit containing one uninsulated and two insulated connectors, add “-1K” suffix to the catalog number.
For a three-phase kit containing one uninsulated and three insulated connectors, add “-3K” suffix to the catalog number.

—

EZB series uninsulated in-line bar

Cat. no.	Cable range (AWG or kcmil)	Outlets	Length (in.)	Stud size (in.)
EZB 4350 SL	#12–350, S/L #14–#2	4	6¾	5/8 & 1
EZB 6350 SL		6	8¾	
EZB 8350 SL		8	10¾	
EZB 4500 SL	#6–500, S/L #14–#2	4	6¾	
EZB 6500 SL		6	8¾	
EZB 8500 SL		8	10¾	
EZB 8750 SL*	1/0–750, S/L #14–#2	8	12⅞	

* Two set-screws per outlet.
Note: For oxide-inhibitor option, add “-C” suffix to the catalog number.
For additional sizes, please consult your ABB representative.

—

01 For EZ Torque® shear-head screws supplied in all outlets, add “-TS” suffix to the catalog number. Shear-head screw is available for both the stud locking screws as well as all 350 cable port screws.

Stud-mount transformer connectors

Aluminum transformer connectors – CSW and CSS series

- Choose from quick-disconnect or screw-on transformer connectors with clear PVC insulating covers.
- Clear PVC insulating boot enables safe and time-saving installations and disconnects, and it features self-sealing wrench outlets and self-adjusting cable outlets
 - Disconnectable — easy to install or remove
 - Dual-rated to accept aluminum or copper conductors
 - Provides a wide cable range
 - Meets or exceeds ANSI C119.4 specifications
 - RUS Accepted

Note: For oxide-inhibitor option, add “-C” suffix to the catalog number.
For streetlight-outlet option, add “-SL” suffix to the catalog number.

01 For EZ Torque® shear-head screws supplied in all outlets, add “-TS” suffix to the catalog number. Shear-head screw is available for both the stud locking screws as well as all 350 cable port screws.

Stud-mount transformer connectors

Aluminum quick-disconnect transformer connectors – ABW in-line bar series

ABW 8500

- High-strength aluminum alloy maintains constant bolting pressure on conductors.
- Quick disconnectability for easy removal from transformer secondary studs
 - Dual-rated to accept aluminum or copper conductors
 - Provides a wide cable range
 - Ball-bottom screws ensure maximum conductor contact pressure and break up interstrand oxides
 - Meets or exceeds ANSI C119.4 specifications
 - RUS Accepted

Double-row configuration. Note: For oxide-inhibitor option, add “-C” suffix to the catalog number.

02 For EZ Torque® shear-head screws supplied in all outlets, add “-TS” suffix to the catalog number.

02

See more of what you're doing.

- Clear PVC enables safe and time-saving installations and disconnects – and provides insulation
- Versatile design enables right- or left-hand installation
- Dual-rated to accept aluminum or copper conductors
- RUS Accepted

Dual-rated and street light ready.

- #14 to #4 AWG street light outlet provides added versatility to make an additional connection
- Meets or exceeds ANSI C119.4 specifications
- RUS Accepted

Stud-mount transformer connectors

AD series adapter

AD 58

AD series adapter

Cat. no.	Stud size (in.)
AD 58	$\frac{5}{8}$
AD 1	1

- The adapter made for the ABD series.
- $\frac{5}{8}$ " or 1" stud sizes
 - Compatible with ABD series (see previous page)

Aluminum quick-disconnect transformer connectors – LRT series

LRT 6350

- Clearly the best deadfront connector.
- Clear, see-through PVC insulator enables safe and time-saving installations and disconnects
 - Insulates two, four, six or eight outlet connectors
 - Versatile design enables right- or left-hand installation
 - Integral wrench outlet covers mean no lost parts
 - Dual-rated to accept aluminum or copper conductors
 - Meets or exceeds ANSI C119.4 specifications
 - RUS Accepted

Aluminum quick-disconnect transformer connectors

Cat. no.	Outlets	Insulator length (in.)	Wire range (AWG or kcmil)
LRT 2350	2	$7\frac{1}{4}$	#12–350
LRT 4350	4		
LRT 6350	6	$10\frac{1}{4}$	
LRT 8350	8		

Note: For oxide-inhibitor option, add “-C” suffix to the catalog number.

01 For EZ Torque® shear-head screws supplied in all outlets, add “-TS” suffix to the catalog number. Shear-head screw is available for both the stud locking screws as well as all 350 cable port screws.

01

Stud-mount transformer connectors

Aluminum universal quick-disconnect transformer connectors –
ZVW-EZSL and Z-EZSL series

ZVW 4023 EZSL

Z 4023 EZSL

The EZ mount connector is used on padmount distribution transformers that have a $\frac{5}{8}$ " or 1" secondary bushing stud – one mounting hole accepts both sizes of studs without repositioning the connector.

- Tri-contact design distributes force more evenly than existing stud mounting configurations or other multi-stud designs, resulting in higher, more uniform contact force on the threads
- Design also eliminates the chance of movement
- Dual stud locking screws fully engage on either stud size, maximizing the engagement force on the stud
- Compact Zeebar® design halves cantilever stress and doubles cable capacity
- Easy to install, because $\frac{5}{8}$ " hex wrench does it all – including the street light outlet
- Truly universal – both series fit $\frac{5}{8}$ " or 1" studs
- Made from aluminum for high strength and high conductivity
- Quick-disconnect connectors are easy to install or remove
- #14 to #2 AWG street light outlet provides added versatility to make an additional connection
- Meets or exceeds ANSI C119.4 specifications
- RUS Accepted

ZVW-EZSL series with clear PVC lock-on insulating cover

Cat. no.	Outlets	Conductor range (AWG or kcmil)	Stud size (in.)
ZVW 4023 EZSL	6	#12–350	$\frac{5}{8}$ & 1
ZVW 5033 EZSL	8		
ZVW 4025 EZSL	6	#6–500	
ZVW 5035 EZSL	8		

Note: For oxide-inhibitor option, add "-C" suffix to the catalog number.

For a kit containing one uninsulated and two insulated connectors, add "-K" suffix to the catalog number.

Z-EZSL series with optional clear PVC drop-on insulating cover

Cat. no.	Outlets	Boot no.	Conductor range (AWG or kcmil)	Stud size (in.)
Z 4023 EZSL	6	EZ 5912-3	#12–350	$\frac{5}{8}$ & 1
Z 5033 EZSL	8	EZ 5912-7		
Z 4025 EZSL	6	EZ 5912-3	#6–500	
Z 5035 EZSL	8	EZ 5912-7		

Note: For oxide-inhibitor option, add "-C" suffix to the catalog number. A cover can also be installed on the Z-EZSL series. For details, please consult your ABB representative.

01 For EZ Torque® shear-head screws supplied in all outlets, add "-TS" suffix to the catalog number. Shear-head screw is available for both the stud locking screws as well as all 350 cable port screws.

01

Stud-mount transformer connectors

Aluminum universal quick-disconnect transformer connectors –
ZVW-USL, ZVW-SL and ZVW-1 SL series

- See-through, lock-on insulated boots make them the clear choice for secondary transformer connectors.
- Compact Zeebar® design halves cantilever stress and doubles cable capacity
 - Easy to install with all screws on top
 - A 5/16" hex wrench does it all – including the street light outlet
 - ZVW-USL series fits both 5/8" or 1" studs; series are also available each for 5/8" and 1" studs
 - Dual-rated to accept copper or aluminum conductors
 - Ball-bottom screws ensure maximum conductor contact pressure and break up interstrand oxides
 - Meets or exceeds ANSI C119.4 specifications
 - RUS Accepted

ZVW-USL series

Cat. no.	Outlets	L (in.)	Conductor range (AWG or kcmil)	Stud size (in.)

ZVW 4045 USL	8	6 13/16		
ZVW 3037 USL	6	6 3/8	1/0–750	
ZVW 4047 USL	8	7 5/8		

Note: For oxide-inhibitor option, add “-C” suffix to the catalog number. For a kit containing one uninsulated and two insulated connectors, add “-K” suffix to the catalog number.

ZVW-SL series

Cat. no.	Outlets	L (in.)	Conductor range (AWG or kcmil)	Stud size (in.)
ZVW 2044 SL	6	3 15/16	#12–250	5/8
ZVW 3054 SL	8	4 3/4		
ZVW 4064 SL	10	5		
ZVW 2043-58 SL	6	4 3/8	#12–350	
ZVW 3053-58 SL	8	5 3/8		

Note: For oxide-inhibitor option, add “-C” suffix to the catalog number. For a kit containing one uninsulated and two insulated connectors, add “-K” suffix to the catalog number.

ZVW-1 SL series

Cat. no.	Outlets	L (in.)	Conductor range (AWG or kcmil)	Stud size (in.)
ZVW 4023-1 SL	6	4 3/4	#12–350	1
ZVW 5033-1 SL	8	5 3/4		
ZVW 4025-1 SL	6	5 1/8	#6–500	
ZVW 5035-1 SL	8	6 1/4		

Note: For oxide-inhibitor option, add “-C” suffix to the catalog number. For a kit containing one uninsulated and two insulated connectors, add “-K” suffix to the catalog number.

01 For EZ Torque® shear-head screws supplied in all outlets, add “-TS” suffix to the catalog number. Shear-head screw is available for both the stud locking screws as well as all 350 cable port screws.

01

Stud-mount transformer connectors

Aluminum universal quick-disconnect transformer connectors –
Z-USL, Z-SL and Z-1 SL series

Z 4045 USL

Z 2043-58 SL

Z 5033-1 SL

Compact secondary transformer connectors with a street light outlet.

- Compact Zeebar® design halves cantilever stress and doubles cable capacity
- Easy to install with all screws on top
- A $\frac{5}{16}$ " hex wrench does it all – including the street light outlet
- Z-USL series fits both $\frac{5}{8}$ " or 1" studs; series are also available each for $\frac{5}{8}$ " and 1" studs
- Dual-rated to accept copper or aluminum conductors
- Ball-bottom screws ensure maximum conductor contact pressure and break up interstrand oxides
- Meets or exceeds ANSI C119.4 specifications
- RUS Accepted

Z-USL series

Cat. no.	Outlets	L (in.)	H (in.)	Conductor range (AWG or kcmil)	Stud size (in.)
Z 3033 USL	6	$5\frac{3}{8}$	$2\frac{7}{8}$	#12–350	$\frac{5}{8}$ & 1

Note: For oxide-inhibitor option, add "-C" suffix to the catalog number. For insulating boot, please consult your ABB representative.

01 For EZ Torque® shear-head screws supplied in all outlets, add "-TS" suffix to the catalog number. Shear-head screw is available for both the stud locking screws as well as all 350 cable port screws.

01

Stud-mount transformer connectors

Aluminum universal quick-disconnect transformer connectors –
LRT-UW, LRT-UX and LRT-U series

LRT 44 UW

LRT 44 UX

LRT 33 U

Compact design halves cantilever stress and doubles cable capacity, lessening the occurrence of leaky bushings.

- LRT-UW Series features fully insulated transformer connector to protect connections
- LRT-UX Series features clear deadfront insulator for safe and time-saving installations and disconnects; locks in place by raised set screws or installation of the first conductor
- EPDM rubber cable adapters accommodate #12 solid to 250 kcmil conductors
- RUS Accepted

For 2-hole outlet connectors

Stud adapter kit

Cat. no.	Stud size (in.)
2135 K	5/8
2250-1 K	1

Note: Includes stud cover and jam nut.

For use with aluminum or copper lugs up to 500 kcmil.

- Heavy PVC-insulated aluminum body keeps out moisture while maintaining high conductivity
- Offset handle design positions cable weight close to tank wall
- Outlets equipped with 1/2" hex-head bolts with captive Belleville washers accept standard one-hole or two-hole NEMA aluminum or copper lugs
- Comply with ANSI C119.4 specifications
- RUS Accepted

- Works with 5/8" and 1" stud sizes
- Compatible with Flood-Seal 95 and 125 series screw-on transformer connectors

Stud-mount transformer connectors

Copper screw-on transformer stud adapters

2043-10

Adapters for cable-to-stud connections.

- Made from pure electrolytic copper for high conductivity
- Marked with crimp area, installing dies and wire size for easy identification

Screw-on stud adapters

Cat. No.	Stud size (in.)	Cable size (AWG or kcmil)

Pad-mount transformer connectors

Aluminum lay-in transformer spade connectors – ABK™ and AK™ series

ABK 1750

ABK 3750

AK 600 N

The slide-out keeper minimizes the hassle and hazards of forcing cables into closed ports.

- Require only a cable stripper and Allen hex wrench – no crimping tools or dies or other special tools needed for installation
- Transformer changes require only the connector to be unbolted from the spade – no need to disconnect all the conductors, as with compression systems
- Dual-rated to use with aluminum or copper cable
- Double set screws maximize contact area and mechanical characteristics
- Ball-bottom screws ensure even force distribution in the cable/connector interface
- RUS Accepted

Aluminum lay-in transformer spade connectors – ABK™ 1000 and ABK™ 7024 series

ABK 441000

ABK 81-7024 L

ABK 881-7024

Save time and labor by placing cables into the keeper slot.

- Cables are easily placed into the keeper slot to minimize the hassle and hazards of having to force cables into the closed cable ports found on conventional mechanical connectors – you save time and labor
- ABK 7024 series comes standard with street light outlet and stainless steel mounting hardware
- Require only a cable stripper and Allen hex wrench – no crimping tools or dies or other special tools are needed for installation
- Transformer changes require only the connector to be unbolted from the spade – no need to disconnect all the conductors, as with compression systems
- Dual-rated for use with aluminum or copper cable
- Ball-bottom screws ensure even force distribution in the cable/connector interface
- RUS Accepted

01 ZBT 7847 support kit

- (1) 30" fiberglass support rod
- (4) 1/4"-13 stainless steel carriage bolts
- (4) 1/4" stainless steel flat washers
- (4) 1/2" stainless steel lock washers
- (4) 1/2" silicone bronze nuts
- (2) tin-plated support brackets

Pad-mount transformer connectors

Aluminum quick-disconnect lay-in transformer connectors – ZBKW™ series

Get two times the cable capacity in the same length.

- Cables are easily placed into the keeper slot to minimize the hassle and hazards of having to force cables into the closed cable ports found on conventional mechanical connectors – you save time and labor
- Compact Zeebar® design halves cantilever stress and doubles cable capacity
- EZ Torque® stud screws make mounting to the transformer stud easy and shear off at the proper torque
- Made from aluminum for high strength and high conductivity
- Dual-rated for use with aluminum or copper cable
- Quick disconnects make connector easy to install or remove
- Wide cable range provides connections for cables ranging from 1/0 to 1000 kcmil
- Two #12 to 1/0 street light outlets provide added versatility for additional connections
- RUS Accepted

ZBKW 2 SLM series

Cat. no.	Conductor range (AWG or kcmil)	Outlets	Size (in.)
ZBKW 2041-1-2 SLM	1/0–1000 main, (2) #12–1/0 street light	6	8.2
ZBKW 2041-1-2 SLRM		6	8.2
ZBKW 3051-1-2 SLM		8	9.9
ZBKW 3051-1-2 SLRM		8	9.9
ZBKW 4061-1-2 SLM		10	11.5

ZBKW 5071-1-2 SLM		12	13.2
ZBKW 5071-1-2 SLRM		12	13.2

Includes 1" transformer stud, two street light outlets and mounting support provision.

ZBKW 2 SLCTM series

Cat. no.	Conductor range (AWG or kcmil)	Outlets	Size (in.)
ZBKW 3031-1-2 SLCTM	1/0–1000 main, (2) #12–1/0 street light	6	9.9
ZBKW 3031-1-2 SLRCTM		6	9.9
ZBKW 3041-1-2 SLCTM		8	11.5
ZBKW 3041-1-2 SLRCTM		8	11.5

Includes 1" transformer stud, two street light outlets, current transformer and mounting support provision.

Note: For 1¼" stud, change "-1" suffix to "-1.25." For 1½" stud, change "-1" suffix to "-1.5."

Pad-mount transformer connectors

Aluminum lay-in transformer spade connectors – ZBK™ series

ZBK 6067

ZBK 4047

Compact Zeebar® design halves cantilever stress and doubles cable capacity.

- Slide-out keeper minimizes the hassle and hazards of having to force cables into the closed cable ports found on conventional mechanical connectors – you save time and labor
- Easy transformer change-out connector can be unbolted from the spade without the need to disconnect the service conductors
- Made from aluminum for high strength and high conductivity
- Dual-rated for use with aluminum or copper cable
- Wide cable range provides connections for cables ranging from 1/0 AWG to 750 kcmil or from 1/0 AWG to 1000 kcmil
- RUS Accepted

Note: For oxide-inhibitor option, add “-C” suffix to the catalog number.

For SB series insulating covers, see page 34.

For tin-plating option, add “-TN” suffix to the catalog number.

Pad-mount transformer connectors

Aluminum transformer spade connectors – ABT™ double set-screw series

ABT 4500 DS

High-strength aluminum alloy maximizes electrical and mechanical performance.

- Ball-bottom screws ensure maximum conductor contact pressure and break up interstrand oxides
- Dual-rated to accept copper or aluminum conductors
- Meets or exceeds ANSI C119.4 specifications

ABT series – Double-set screw

Cat. no.	Outlets	Length (in.)	Mounting holes	Conductor range (AWG or kcmil)

Note: For oxide-inhibitor option, add “-C” suffix to the catalog number.

For tin-plating option, add “-TN” suffix to the catalog number.

For SB series insulating covers, see page 34.

Pad-mount transformer connectors

Aluminum transformer spade connectors – ZBT™ series

ZBT 3033-48

ZBT 4047

ZBT 4043

ZBT 3037 DS

The quicker-installation alternatives to compression lugs.

- Compact Zeebar® design halves cantilever stress and doubles cable capacity
- High-strength aluminum alloy maximizes electrical and mechanical performance
- Ball-bottom screws ensure maximum conductor contact pressure and break up interstrand oxides
- Dual-rated to accept copper or aluminum conductors
- Meets or exceeds ANSI C119.4 specifications

ZBT series – Single-row mounting holes

Pad-mount transformer connectors

Aluminum Flood-Seal® 125 series transformer spade connectors

FTN 125-44N

FTN 125-4N

- For deadfront pad-mount transformers with four-hole NEMA spade secondary bushings.
- Provide maximum contact to ensure cooler operating, more reliable joints
 - Dual-rated for use with aluminum or copper cable ranging from #8 AWG to 500 kcmil
 - Outlets equipped with ½" plated steel hex-head bolts with captive Belleville washers to accept standard one-hole or two-hole NEMA aluminum or copper lugs
 - All Flood-Seal connectors comply with ANSI C119.4 specifications

1-hole outlets

Cat. no.	Outlets	L (in.)
FTN 125-2	2	4

* Double-row configuration.
Note: For complete assembly with CS 2011 insulating rockets, add "-AWR" suffix to the FTN catalog number.
For complete assembly with CSN 2011 insulating rockets, add "-AWR" suffix to the FTN-N catalog number.

Pad-mount transformer connectors

Aluminum Flood-Seal® 175 series transformer spade connectors

FTN 175-4R

FTN 175-22

For deadfront pad-mount transformers with four-hole NEMA spade secondary bushings.

- Flood-Seal connectors permit the use of aluminum or copper standard side-formed two-hole lugs
- Flood-Seal EPDM rubber insulating sleeves are available to fully insulate outlets
- All outlets are provided with ½" plated steel hex-head bolts and captive Belleville washers
- Cable range from 4/0 AWG to 1000 kcmil aluminum or copper
- Maximum contact ensures cooler operating, more reliable connections
- All Flood-Seal connectors meet or exceed ANSI C119.4 specifications

Single-row style

Network protector connectors

Flood-Seal® 175 series clamp-on style transformer and network protection connectors

Convenient multiple-tap connections to power transformers and network protectors.

- Compact design conserves vault and manhole space – and often eliminates the need for auxiliary buses
- Clamp-style base provides 3¼" of stud contact and eliminates the need for a jam nut
- Rubber gasket ensures secure closure between connector halves
- All NEMA-drilled aluminum alloy outlets equipped with plated hex-head bolts and captive Belleville washers to accept two-hole NEMA lugs up to 1000 kcmil, vertical or horizontal

Vertical cable leads

	Cat. no.	Outlets	Stud size (in.)
Diagrams	FTT 44-175-15	8	1½
	FTT 44-175-30	8	3

Rubber gasket provides secure closure between connector halves

Note: For copper connectors, add "-CU" suffix to the catalog number.
For complete assembly with insulating rockets, add "-AWR" suffix to the catalog number.
For special applications or greater number of outlets than those listed, please consult your ABB representative.

Horizontal cable leads

For complete assembly with insulating rockets, add "-AWR" suffix to the catalog number.
For special applications or greater number of outlets than those listed, please consult your ABB representative.

Drop-on insulating boots

Insulating boots for transformer spade connectors

SB 2159
(PVC)

BBV4N
(EPDM)

Insulating boots for harsh environments.

- BBV4N features EPDM rubber flexi-boot – will not crack from cold embrittlement, will not cold flow and will not soften with heat
- BBV4N features flexible locking ribs to prevent accidental removal of EPDM boot
- PVC boots available
- SB series is RUS Accepted

Note: For boot sizes not listed, please consult your ABB representative.
PVC boots available in black, gray, yellow or clear.

Flood-Seal® multi-port connectors

Aluminum Flood-Seal mechanical connectors

Save outlet space.

These connectors feature the Sweetheart® outlet configuration that nests two equal-sized service cables from #6 to 2/0 AWG or two different-sized cables from #2 to 2/0 AWG, saving you outlet space and consequent cost. Unique cable outlets permit the use of street light wire either in original construction or as a later addition. Connectors are dual-rated, PVC insulated, supplied with insulating rockets and prefilled with oxide inhibitor.

- Aluminum-alloy connector construction for high strength and high conductivity; dual-rated for use with copper or aluminum cable
- Exceed ANSI C119.1 and C119.4 requirements and are RUS Accepted
- All connectors are 100% hi-pot tested at 4000 V for 60 seconds

Flood-Seal mechanical connectors

		Cable range feeder outlet S/L (AWG or kcmil)	Outlets	L (in.)
Diagrams		Cat. no.		
	SHC 21	#6-2/0	2	3 1/4

	SHC 500-8		8	17 ³ / ₈

Flood-Seal® multi-port connectors

Aluminum Flood-Seal mechanical connectors – 4/0 series

- Save outlet space and use street light wire.** Aluminum Flood-Seal mechanical connectors feature ball-bottom screws that support the widest conductor range and aid in breaking up aluminum oxides. Wide-range cable outlets permit the use of street light wire either in original construction or as a later addition. Sweetheart® connectors are dual-rated, PVC insulated, supplied with insulating rockets and prefilled with oxide inhibitor.
- Dual-rated for use with a wide range of aluminum or copper cable
 - Aluminum-alloy connector construction for high strength and high conductivity
 - Sweetheart outlet configuration doubles cable capacity and halves space requirements
 - Single-screw design with outlets sealed with Flood-Seal EPDM rockets
 - Street light option supports the use of street light wire (#14 to #4 AWG)
 - Exceed ANSI C119.1 and C119.4 requirements and Western Underground Committee Guidelines and are RUS accepted.
 - All connectors are 100% hi-pot tested at 4000 V for 60 seconds

Mechanical connectors for 4/0 AWG outlets with 500 kcmil feeder

UH 1000-242 R

Twin screws double the reliability of ordinary set-screw connectors.

- Flood-Seal insulating rockets field tested in more than 10 million applications, and serve as waterproof spare outlet caps until used as waterproof cable insulators
- All connectors are 100% hi-pot tested at 4000 V for 60 seconds
- Prefilled with oxide inhibitor to prevent oxidation and keep out moisture
- Aluminum-alloy connector construction for high strength and high conductivity
- Dual-rated to accept a wide range of copper or aluminum conductors
- Exceed ANSI C119.1 and C119.4 requirements as well as Western Underground Committee Guidelines

Twin-screw one-way configuration

Cat. no.	Conductor range (AWG or kcmil)	Outlets	Length (in.)
UH 1000-2 R	#2–1000	2	4 ¹³ / ₁₆
UH 1000-4 R		4	9 ¹⁵ / ₁₆
UH 1000-6 R		6	15
UH 1000-8 R		8	20 ¹ / ₈

Note: For two-way configurations, please consult your ABB representative.

Twin-screw two-way configuration

Cat. no.	Conductor range (AWG or kcmil)	Outlets

Flood-Seal® multi-port connectors

Aluminum Flood-Seal multi-port connectors – RAB series

- High-performance, dual-rated connectors.
- Flood-Seal insulating rockets serve as waterproof spare outlet caps until used and are also resealable
 - 6061-T6 aluminum connector construction provides high strength and high conductivity
 - Dual-rated to accept a wide range of aluminum and copper conductors
 - All connectors are 100% hi-pot tested at 4000 V for 60 seconds
 - RAB 1/0 series offers compact design – great for street light applications
 - RUS Accepted

RAB 1/0 series

Cat. no.	Conductor range (AWG or kcmil)	Outlets	Length (in.)
RAB 1/0-2	#14–1/0	2	1¾
RAB 1/0-3		3	2 ³⁹ / ₆₄
RAB 1/0-4		4	3 ⁷ / ₁₆
RAB 1/0-5		5	4 ⁹ / ₃₂
RAB 1/0-6		6	5 ¹ / ₈
RAB 1/0-7		7	5 ³¹ / ₃₂
RAB 1/0-8		8	6 ¹³ / ₁₆
RAB 1/0-9		9	7 ²¹ / ₃₂
RAB 1/0-10		10	8½
RAB 1/0-21		3	2 ³⁹ / ₆₄
RAB 1/0-22		4	3 ⁷ / ₁₆
RAB 1/0-31		4	3 ⁷ / ₁₆
RAB 1/0-32		5	4 ⁹ / ₃₂
RAB 1/0-33		6	5 ¹ / ₈
RAB 1/0-42		6	5 ¹ / ₈

Note: For oxide-inhibitor option, add “-C” suffix to the catalog number.

RAB 350 series

Cat. no.	Conductor range (AWG or kcmil)	Outlets	Length (in.)
RAB 2-C	#12 sol.–350	2	2 ⁷ / ₁₆
RAB 3-C		3	3 ⁵ / ₈
RAB 4-C		4	4 ¹³ / ₁₆
RAB 5-C		5	6
RAB 6-C		6	7 ¹ / ₈
RAB 8-C		8	9 ⁹ / ₁₆
RAB 10-C		10	11 ¹⁵ / ₁₆

Note: The RAB 350 series comes standard with inward-seal rockets. For outward-seal rockets, please consult your ABB representative. Provided with oxide inhibitor.

01 For EZ Torque® shear-head screws supplied in all outlets, add “-TS” suffix to the catalog number.

01

Flood-Seal® multi-port connectors

Aluminum Flood-Seal multi-port connectors – RAB and USB series

USB43S

- Ideal for direct-burial, pedestal or vault installations.
- Field-adaptable cable sleeves enable installation on a wide range of conductor sizes
 - Standard aluminum set screws with 5/16" socket hex spread compressive forces over conductor strands, reduce strand damage, result in lower contact resistance and provide high set-screw torque retention
 - Compact design enables installation in limited spaces
 - Dual-rated to accept a wide range of aluminum and copper conductors
 - All connectors are 100% hi-pot tested at 4000 V for 60 seconds
- Built tough for rugged conditions – tough enough to withstand rough handling in the field, have an excellent dielectric strength rating (>700 V/mil) and have excellent aging characteristics under continuous high operating temperatures (to 130 °C)
 - All connectors have oxide inhibitor and silicone grease to keep out moisture and make installation easy and convenient
 - Comply with ANSI C119.1 and C119.4 as well as Western Underground C.G. 2.5
 - RAB series is RUS Accepted

RAB 500 series

Cat. no.	Ports	Cable range (AWG or kcmil)	Length	
			in.	mm

01 For EZ Torque® shear-head screws supplied in all outlets, add “-TS” suffix to the catalog number.

Flood-Seal® multi-port connectors

Aluminum Flood-Seal multi-port connectors – RXL series

- Universal use! Install in direct-burial, handhole, pedestal or vault applications.
- Wide port spacing makes installation easier
 - Field-adaptable cable sleeves enable installation on a wide range of conductor sizes
 - Bars constructed of 6061-T6 aluminum alloy for high strength and high conductivity
 - Standard aluminum set screws with 5/16" socket hex spread compressive forces over conductor strands, reduce strand damage, result in lower contact resistance and provide high set-screw torque retention
 - All connectors are 100% hi-pot tested at 4000 V for 60 seconds
 - Comply with ANSI C119.1 and C119.4 and Western Underground C.G. 2.5 and are RUS Accepted
 - Dual-rated to accept a wide range of aluminum and copper conductors

RXL 350 series

Cat. no.	Outlets	Cable range (AWG or kcmil)	Length	
			in.	mm
RXL 3-C	3	#12–350	4.3	109
RXL 4-C	4		5.8	147
RXL 5-C	5		7.3	185
RXL 6-C	6		8.8	223
RXL 8-C	8		11.8	299

Note: Provided with oxide inhibitor.

01 For EZ Torque® shear-head screws supplied in all outlets, add “-TS” suffix to the catalog number.

RXL 600 Series

Diagrams

Flood-Seal® multi-port connectors

Aluminum Flood-Seal multi-port connectors – RXM series

RXM 4

RXM 22

RXM 31

The fully insulated and watertight connectors for direct-burial, handhole, pedestal and overhead applications.

- Flood-Seal EPDM insulating rockets field tested in more than 10 million applications
- 6061-T6 aluminum connector construction provides high strength and high conductivity
- Dual-rated to accept a wide range of copper or aluminum conductors, from #2 AWG solid to 1000 kcmil
- Ball-bottom screws support the widest conductor range and aid in breaking up aluminum oxides
- EPDM rubber cap is easy to find, prevents accidental removal and can be easily removed with pliers
- All connectors are 100% hi-pot tested at 4000 V for 60 seconds

Cable entry one side only

Cat. no.	Outlets	Length (in.)
RXM 2	2	3 $\frac{1}{16}$
RXM 4	4	7 $\frac{1}{4}$
RXM 6	6	10 $\frac{7}{8}$
RXM 8	8	14 $\frac{1}{2}$
RXM 10	10	18 $\frac{3}{8}$
RXM 12	12	21 $\frac{3}{4}$

Cable entry from either side

Cat. no.	Outlets	Length (in.)
RXM 22	4	7 $\frac{1}{4}$
RXM 33	6	10 $\frac{7}{8}$
RXM 44	8	14 $\frac{1}{2}$
RXM 66	12	21 $\frac{3}{4}$

Example: RXM 22 accommodates a maximum of four cables, accessible from either side.

Custom orders

Cat. no.	Outlets	Length (in.)
RXM 31	4	7 $\frac{1}{4}$
RXM 42	6	10 $\frac{7}{8}$

Order using first number for outlets needed on one side and second number for outlets needed on opposite side. For example, RXM 31 has three outlets on one side and one outlet on the other side.

For configurations up to a total of 12 outlets, please consult your ABB representative. Note: For oxide-inhibitor option, add "-C" suffix to the catalog number.

Diagrams

Cables enter from one side only

Flood-Seal® multi-port connectors
Aluminum Flood-Seal 95 series connectors

FS 95-6

- Suitable for direct burial or installation in an enclosure.
- Compact, single-hole design ideal for residential applications
 - Dual-rated for use with aluminum or copper lugs from #12 AWG to 350 kcmil
 - All outlets and lugs (see kits below) approved for full cable rating – safe and reliable
 - All connectors are 100% hi-pot tested at 4000 V for 60 seconds
 - RUS Accepted

95 series connectors

Diagrams

Flood-Seal® multi-port connectors

Connectors, adapter and sleeves

Submersible street light connectors

USL 11

Great for pedestal, vault, light pole base or direct-burial jobs.

- Rated for 600 V, 100 A – built for heavy-duty loads; helps bring power to nearly all types of street lights
- All connectors are 100% hi-pot tested at 4000 V for 60 seconds
- Dual-rated and approved for #12 AWG solid through #4 AWG stranded aluminum or copper connections

Submersible street light connectors

Cat. no.	Ports	Width (in.)	Height w/ sleeve (in.)	Screw type
USL 11	2	–	6.3	Slotted
USL 30	3	3.6	3.1	Slotted
USL 11 H	2	–	5.3	Hex-socket
USL 30 H	3	3.6	3.1	Hex-socket

Note: For contour-plated set-screw option that does not damage the conductor when tightened down, add "-H" suffix to the catalog number.

Street light adapter

Connect your small conductors to a Squid® bus junction.

- 356-T6 aluminum connector construction provides high strength and conductivity
- Dual-rated for small conductors – connect #10 AWG solid through #4 AWG stranded cables to a standard Squid® bus junction

Street light adapter

Cat. no.	Description
SLA 1	Street light adapter

Squid® sealing sleeves

Make seals without tape, compound or heat source.

- EPDM rubber sealing sleeve grips the conductor insulation on one end and seals onto the insulated bus on the other end
- Sleeves provided with plug installed – can be used as terminal covers
- SC adapter available – perfect to use when #2 AWG compact standard 600 V underground service entrance cable has an insulation outer diameter less than 0.390"

Squid® sealing sleeves

FXL 66-175	12

01

Rubber insulation ensures a watertight connection.

- Outlets equipped with ½-13 UNC and accept hex-head screws with captive Belleville washers to accept two-hole NEMA aluminum or copper compression lugs
- All connectors are 100% hi-pot tested at 4000 V for 60 seconds

FXL 175 copper series – For two-hole NEMA lugs up to 1000 kcmil

Cat. no.	Outlets
FXL 22-175 CU	4
FXL 33-175 CU	6
FXL 44-175 CU	8
FXL 66-175 CU	12

Diagram

Flood-Seal 175 dual adapter kit

Flood-Seal 175 dual adapter kit

Cat. no.	Description
FS 175 DPK	175 dual adapter kit

Note: Connector not included.

Adapter kit enables installer to pull two connections off one leg.

- Double cable capacity (500 kcmil max.)
- Rugged kit includes twin tower rocket, adapter ring and aluminum hardware

Diagram

Pedestal connectors and covers

Aluminum lay-in pedestal connectors

- Effortlessly install or remove large, stiff cables in confined areas.
- Cables are easily placed into the keeper slot
 - Minimizes the hassle and hazards of having to force cables into the closed cable ports found on conventional mechanical connectors
 - Saves time and labor
 - Requires only a cable stripper and Allen hex wrench – no crimping tools or dies or other special tools are needed for installation
 - Dual-rated for use with aluminum or copper cable
 - Ball-bottom screws ensure even force distribution in the cable/connector interface

ABCK series

Cat. no.	Conductor range (AWG or kcmil)	Outlets
ABCK 6350	#6–350	6
ABCK 6600	#2–600	
ABCK 6600 DS*	#2–600	

* "-DS" suffix indicates double set screws.

Pedestal connectors and covers

Aluminum pedestal connectors

ZVB 5053

- Insulated and uninsulated pedestal connectors with up to 10 outlets.
- Compact Zeebar® design doubles cable capacity and reduces footprint
 - ZVB series features clear PVC encapsulation to enable safe installations and disconnects – and provide insulation
 - Easy to install – all screws are on top, and a 5⁄16" hex wrench is all you need
 - Dual-rated to accept aluminum or copper conductors
 - Ball-bottom screws ensure maximum conductor contact pressure and break up interstrand oxides
 - Meets or exceeds ANSI C119.4 specifications

Insulated and uninsulated pedestal connectors

For a kit containing one uninsulated and two insulated connectors, add “-K” suffix to the catalog number.

Diagram

Pedestal connectors and covers

Insulated pedestal connector bars — Type PSB-C

- Port-separated clear plastic cover provides insulation against accidental contact during installation.
- Bars are constructed of 6061-T6 aluminum alloy for strength and conductivity
 - Standard aluminum set screws with 5/16" socket hex spread compressive forces over conductor strands, reduce strand damage, increase interstrand movement, result in lower contact resistance and provide high set-screw torque retention
 - Dual-rated for use with aluminum or copper conductors
 - Contax® oxide inhibitor standard in all conductor ports
 - Meets ANSI C119.4 specifications
 - RUS Accepted

350 series – Insulated PSB bars dual rated (Al-Cu)

Cat. no.	No. of ports	Cable range (AWG or kcmil)	Length (in.)

Compression splice kits

Aluminum Flood-Seal® compression splice kits

RRK 500

Reliable underground watertight repair splice with locking EPDM cover.

- Radiating rib design dissipates heat, centers the watertight insulating cover and seals perfectly every time
- Rubber Flood-Seal insulating cover fits snugly for maximum heat dissipation, no tape required
- Compact size allows you to install connectors on up to 4/0 AWG cable in only 10" of space using UT 3 M or UT 3 tools
- Prefilled with oxide inhibitor to prevent oxidation and keep out moisture
- Exceeds ANSI C119.4 requirements and is RUS Accepted

Compression splice kits

Copper Flood-Seal® compression splice kits

Dissipate heat and make perfect watertight connections.

Homac copper Flood-Seal compression splice kits enable you to quickly make watertight copper-to-copper splice connections or repair copper service cables damaged by dig-ins or failures and restore their watertight integrity. The unique design of the splice/cover combination makes this the fastest and easiest watertight splicing solution available. The pre-greased insulating cover slides effortlessly onto the cable. After you've prepared the cable and crimped the splice, simply slide the cover back over the splice until it is positively centered and mates with the connector rib. That's it – no cutting, taping, heat guns or pull cords!

- Radiating rib dissipates heat, centers the watertight insulating cover and seals perfectly every time
- Single-piece Flood-Seal insulating covers are pre-lubricated and sized for the connection
- Easy installation saves you time and money
- Exceeds ANSI C119.1 requirements

Aluminum mechanical splice kits

Aluminum Flood-Seal® mechanical splice kits

Range taking – no compression tools and dies required.

- Prefilled with oxide inhibitor to prevent oxidation and keep out moisture
- Dual-rated and approved for use with aluminum or copper conductors

- EPDM rubber splice covers ensure a fully insulated, watertight repair splice – there's no taping, heat shrink or mastic required
- Sized for most conductors perfect for repairing any 2-, 3- or 4-wire installation
- RUS Accepted

Two-wire kits

Aluminum mechanical splice kits

Aluminum Flood-Seal® inline watertight splice kits

01 RABS 35012 universal range-taking splice

02 RABS 350250, RABS 4010 and RABS 16 no-cut style splices

01

02

- Watertight connections made easy – no tools, tape or heat shrinking!**
- Homac Flood-Seal inline watertight splice kits enable you to make watertight splice connections quickly – without the need for time-consuming compression tools, insulating tape or heat-shrink insulation.
- Flood-Seal technology provides superior insulating, waterproofing and UV-resistant performance without tape or shrinks – no heat guns or pull cords
 - Rubber-insulated aluminum splices feature mechanical set-screw connections for fast, easy installation resulting in lower installed cost
 - Cat. no. RABS 35012 universal range-taking splice accommodates aluminum and copper conductor sizes from #12 AWG to 350 kcmil with only one SKU
 - Three dual-rated splices accommodate a wide range of aluminum and copper conductor sizes and require no cutting of insulator for fast, easy installation
 - Suitable for direct burial, handhole and overhead applications
 - Exceeds ANSI C119.1 requirements

Universal range-taking dual-rated splice

Cat. no.	Conductor size and sealing range (AWG or kcmil)
RABS 35012	#12–350

No-cut style dual-rated splices

Cat. no.	Conductor size and sealing range (AWG or kcmil)
RABS 16	#6–#1
RABS 4010	1/0–4/0
RABS 350250	250–350

Insulating covers and end caps

Flood-Seal® insulating covers

Watertight, fully insulated covers for a variety of splice applications.

- Sizes for most conductors – perfect for copper or aluminum conductors ranging from #14 AWG to 1500 kcmil
- Easy-to-install, waterproof twin-tap covers
- Cut the proper cable rings at each end of the twin-tap cover and slide cover halves over cables; the cover halves are mated, enclosing the compression tap in a waterproof seal
- Eliminates taping to significantly reduce labor and material cost of splice preparation
- Rated 600 volts – built for heavy-duty loads
- RUS Accepted

Insulating covers and end caps

Flood-Seal® cable end caps

Cap off your cable with our cable end caps.

- EPDM rubber construction and multiple internal sealing ring design enables each cap to fit wide decimal range
- Reusable to save money
- Durable and unaffected by sun, rain or soil
- Tight fitting to prevent accidental removal
- Watertight – doesn't require tape, compound or heat source for fitting
- Dielectrically tested to ANSI C119.1 requirement (2,200 volts AC for one minute)

Pipe and conduit seals

Flood-Seal® pipe/conduit seals

Rubber-insulated end caps for commercial pipes and conduits.

- Flood-Seal EPDM rubber seals out water, insects, rodents and dirt
- Durable and unaffected by sun, rain or soil
- Ideal for installations or cable replacements
- Tight fitting to prevent accidental removal

Breakaway street light kits

Flood-Seal® street and highway lighting compression fuse and non-fused kits – In-line

Everything you need for copper connections to roadway lighting.

Copper in-line fuse kits include Flood-Seal housing, fuse clips, silicone lubricant and instruction sheet. Fuse is not included. Fuse kits accept non-glass standard cartridge fuses of $\frac{13}{32}$ " diameter and $1\frac{1}{2}$ " length. Copper in-line non-fused kits include Flood-Seal housing, connecting link, silicone lubricant and instruction sheet.

- EPDM rubber housing ensures a fully insulated, watertight and submersible connection
- Breakaway design separates under tension so wires don't break
- Safe separations – fuse or connecting link stays in covered load side when separated
- Rated for 600 V, 30 A maximum – perfect for heavy-duty applications

For larger wire sizes, please consult your ABB representative.

Breakaway street light kits

Flood-Seal® street and highway lighting mechanical fuse and disconnect kits – Y-type

Ideal for heavy-duty applications.

- Aluminum and copper Y-type fuse kits include Flood-Seal housing, fuse clips, two aluminum lugs, hardware, silicone lubricant and instruction sheet. Fuse is not included. Aluminum and copper Y-type disconnect kits include Flood-Seal housing, fuse clips, connecting link, two aluminum or copper lugs, hardware, silicone lubricant and instruction sheet.
- EPDM rubber housing ensures a fully insulated, watertight and submersible connection
 - Safe separations – fuse or connecting link stays in covered load side when separated
 - Dual-rated and approved for a wide range of aluminum or copper conductors
 - Rated for 600 V, 30 A maximum – perfect for heavy-duty applications
 - Some fuse kits can even accept a 60 A fuse

600 Volt, 30 amp max., fused

Cat. no.	Wire size stranded (AWG)	Fused/non-fused	Installing dies
FYA-6	#6	Fused (aluminum run, copper tap)	52, BG, 243, 5/8

Breakaway street light kits

Flood-Seal® street and highway lighting mechanical fuse and disconnect kits – In-line

In-line mechanical kit options for aluminum or copper conductors.

In-line fuse kits include Flood-Seal housing, fuse clips, silicone lubricant and instruction sheet. Fuse is not included. Fuse kits accept non-glass standard cartridge fuses of $\frac{13}{32}$ " diameter and $1\frac{1}{2}$ " length. SLK 22-60 M, SLK 102-60 M and SLK 1010-60 M fuse kits can also accept a 60 A fuse measuring $2\frac{1}{4}$ " long. In-line non-fused kits include Flood-Seal housing, connecting link, silicone lubricant and instruction sheet.

- EPDM rubber housing ensures a fully insulated, watertight and submersible connection
- Safe separations – fuse or connecting link stays in covered load side when separated
- Dual-rated and approved for a wide range of aluminum or copper conductors
- Rated for 600 V, 30 A maximum – perfect for heavy-duty applications
- Some fuse kits can even accept a 60 A fuse

[†] Indicates twin housing.

* 60A fuse max. 60A fuses are $2\frac{1}{4}$ " long.

Note: 600V, 30A fuse not included. Fused kits accept standard cartridge fuse with $\frac{13}{32}$ " diameter, $1\frac{1}{2}$ " length, non-glass type.

Breakaway street light kits

Flood-Seal® street and highway lighting mechanical fuse and disconnect kits – Y-type

FYU 2

- Standard and mechanical run compression tap kits for your roadway lighting jobs.**
- Mechanical Y-type fuse kits include Flood-Seal housing, fuse clips, dowel and silicone lubricant. Fuse is not included. Fuse kits accept non-glass standard cartridge fuses of $\frac{13}{32}$ " diameter and 1½" length.
- EPDM Flood-Seal housing ensures a fully insulated, watertight and submersible connection
 - Breakaway design separates under tension so wires don't break
 - Safe separations – fuse or connecting link stays in covered load side when separated
 - Matching ampacity rating – run or feeder lugs have the same ampacity rating as the cable, up to 2/0 AWG
 - Rated for 600 V, 30 A maximum – perfect for heavy-duty applications
 - Y-type mechanical run compression taps use a ⅛" hex wrench for easy installation

(Style 1)

Two connector styles to match your application.

- EPDM Flood-Seal housing ensures a fully insulated, watertight and submersible connection
- Dual-rated to accept aluminum or copper conductors ranging from #14 to 1/0 AWG.

Flood-Seal® street and highway lighting mechanical connectors

Style	Cat. no.	Conductor range (AWG)	Outlets
	RAB 1/0-2	#14 – 1/0	2
	RAB 1/0-3		3
	RAB 1/0-4		4
	RAB 1/0-5		5
	RAB 1/0-6		6
	RAB 1/0-7		7
	RAB 1/0-8		8
	RAB 1/0-9		9
	RAB 1/0-10		10
	RAB 1/0-21		3
	RAB 1/0-22		4
	RAB 1/0-31		4
	RAB 1/0-32		5
	RAB 1/0-33		6
	RAB 1/0-42		6

Note: For oxide-inhibitor option, add “-C” suffix to the catalog number.

Mechanical street light connectors

Insulated street and highway lighting mechanical connectors

RB 210-8 SL

SLV 42-212

BY 320

Insulated connectors for above-ground applications.

- Rubber insulation ensures an insulated connection
- Models with street light connectors fit a range of mains and taps
- SLV series features clear PVC to enable safe and time-saving installation
- SLV series sized for a range of conductors – perfect for multiple installation types
- BY series features a PVC boot and locking insulator to ensure a fully insulated connection; the connector stays on until removal is necessary

Insulated street and highway lighting mechanical connectors

Cat. no.	Conductor range (AWG)
RB series – Rubber insulated	
RB 210-8 SL	Main 1/0 max., tap #12 – #8
RB 210-8 SS	Main 1/0 max., tap #12 – #8
RB 6240 SL	Main 2/0 – #14, tap #14 – #6
SLV series – Clear PVC encapsulated	
SLV 240-24	Main (2) 4/0 – #6, tap (2) #4 – #14
SLV 42-212	#12 – #2
BY series – PVC insulated	
BY 320	#14 – 2/0

Note: For oxide-inhibitor option, add “-C” suffix to the catalog number.

Equipment locks

ELB

ELB 2

Rugged, reliable protection for your pad-mount transformers.

- Shear-head screw provides tamper-proof security for your transformer connector equipment
- Three models available – secure your equipment with a mix of all three models for added protection

Equipment locks

Cat. no.	Figure no.	Dimensions (in.)				Alumoweld gauge
		L1	L2	W1	W2	
ELB	1	2.13	1.25	1.06	0.94	6
ELB 2	2	2.19	1.25	2.00	1.00	4
ELB 2 A	3	3.00	1.69	2.00	1.06	4

Sealants and lubricants

HOM-OX oxide inhibitor

- Seals electrical connections from oxygen and moisture.
- Fully compatible with all solid insulating materials, including rubber, paper and impregnating oils
 - Stable over a wide operating temperature range of -40 °F to 300 °F
 - HM 52 and HM 56 are also joint compounds for making full-tension splices and aluminum cable connections, respectively

HOM-OX oxide Inhibitor

Cat. no.	Description
HM 52 (1/2 PINT)	Oxide-inhibiting joint compound for full-tension splices only. ½ Pint (8 fl. oz.)
HM 53 (1/2 PINT)	Oxide-inhibiting compound for non-tension splices or pad-to-pad applications. ½ Pint (8 fl. oz.)
HM 56 (1/2 PINT)	Oxide-inhibiting joint compound for overhead compression, partial-tension splices, service entrance and pin terminals. ½ Pint (8 fl. oz.)

Note: For larger container sizes, please consult your ABB representative.

EC-S8C oxide inhibitor

- Stop surface oxides from interfering with current transfer between electrical components.
- Use on aluminum-to-aluminum, aluminum-to-copper and copper-to-copper applications
 - Safe for use on cables – does not affect rubber or cable insulation; does not contain grit
 - Stable over a wide operating temperature range of 0 °F to 460 °F
 - Non water-soluble, non petroleum-based polymer grease does not stain

EC-S8C oxide inhibitor

Cat. no.	Description
EC-S8C	Oxide-inhibiting joint compound. ½ Pint (8 fl. oz.)

Note: For a more effective electrical connection, all conductors need to be wire-brushed right before the application of this compound. Wire brushing is not recommended on tin-plated components.

Sealants and lubricants

Thread lubricant

- Versatile use
- Aids in installations and splices

Thread lubricant

Cat. no.	Description
TL 101 (1/2 PINT)	Thread lubricant, ½ pint (8 fl. oz.)

Silicone lubricant for high-voltage electrical work

- Specially formulated for high-voltage cable
- Best used in heavy-duty electrical applications
- Eases installation of cables in Flood-Seal® rockets

Silicone lubricant for high-voltage electrical work

Cat. no.	Description
SL5	0.5 oz. tube

Blackburn® WW wire bristle brush

- Remove oxides from conductor surfaces.
- Easy-grip handle with glove guard prevents rubber glove puncture
 - Long-life wire elements can be rotated and are replaceable
 - Handle and guard coated with durable, non-conductive plastic for safety

Blackburn WW wire bristle brush

Cat. no.	Description
WWB1	Complete brush with handle
WRB1	Wire element only, pair
