Current life cycle status

ACS800-14 modules are in the Active phase according to the ABB life cycle model outlined above.

Life cycle plan

The plan for Classic phase is from the second half of 2018 until the end of 2029.

The ABB life cycle management model is designed to manage an orderly transition to new replacement products or to choose from various lifetime extending services. At the same time the model ensures access to continuing support for our customers.

Recommended actions

No actions are required. Full range of life cycle services and support are available during the Classic phase.

Further information
