</table>

### Current life cycle status

The mentioned product sub-type of MEGASTAR A drive is in the **Limited** phase since 1.1.2018 according to the ABB life cycle model outlined above. They represent drive’s installations where the recommended Life cycle upgrade services were applied (control upgrade to PSR2).

### Life cycle plan

It is planned to transfer the mentioned product sub-type to **Obsolete** phase on 01.01.2022.

The ABB life cycle management model is designed to manage an orderly transition to new replacement products or to choose from various lifetime extending services. At the same time the model ensures access to continuing support for our customers.

### Recommended actions

It is recommended to start planning for a replacement of the product since in Limited phase many Services are not available at all or have only limited availability.
