

	
1/2007: Human in the loop		3/2007: Pioneering collaboration	
Human in the loop	6	The optimal way to cooperate	6
The calm after the storm	11	Staying power on two legs	9
Galvanizing support	16	No step without the customer	11
Intelligent alarming	20	Collaborating for success	15
Peak performance	24	Thinking ahead	18
Design methods	30	Hydrofluoric acid alkylation	22
Case study	34	Tapping technology	27
Projections of productivity	37	A smooth shutdown	31
Spatial awareness	40	Combining forces to provide stability	34
Mapping the weakest link	44	Control and protection	39
The drive for simplicity	49	Detected!	42
Ambient intelligence	53	Safety in speed	46
Room for improvement	56	Partners in technology	50
Power semiconductors (part two)	62	Oiled and ready to go	53
Plainly speaking	67	Pressing challenge	58
Augmented reality	70	Welding dedication	63
Perpetual pioneering	73	Robotic specialists	65
The circuit breaker	75	Customer driven	68
		Integrated operations	72
		What loops can tell us	76
		Transforming history	80
			
2/2007: Energy efficiency		4/2007: World of innovation	
Trends and drivers	6	A successful 2007	6
Looking back from 2015	11	Signaling enhancements	12
Power to be efficient	14	Performing at a higher level	18
Ultra high voltage transmission	22	A touching movement	22
Congestion relief	28	A higher level of efficiency	26
Harnessing the wind	33	Integration breakthrough	32
Plant optimization	39	Speed and quality	38
OPTIMAX™	44	Wellness for your profit line	42
In a league of its own	45	On-site transformation	45
Energy efficient rolling	49	Integration guaranteed	49
The energy optimizers	53	Efficiency up, emissions down	53
More productivity, less pollution	58	Green ships on the high seas	58
Shades of green	62	The strongest link	62
Clean power from the sea	69	More muscle, less waste	66
Saving energy through drive efficiency	73	Wireless detection	70
Motor efficiency	81	100 years	74
Turbo chargers	85
