Product life cycle status statement
MEGADRIVE-LCI (PSR) after Control Upgrade (PEC3)

Active
Product is in active sales and manufacturing phase.
Serial production has ceased. Product may be available for plant extensions, as a spare part or for installed base renewal.
Full range of life cycle services is available.

Classic
Product is no longer available for sale. Manufacturing has stopped.
Full range of life cycle services is available. Product enhancements may be available through upgrade and retrofits.

Limited
Replacement and end-of-life services
Limited range of life cycle services is available. Spare parts availability is limited to available stock.

Obsolete
Full range of life cycle services is available.

Current life cycle status
The mentioned product sub-type of MEGADRIVE-LCI drive are in the Classic phase according to the ABB life cycle model outlined above. They represent drive’s installations where the recommended Life cycle Upgrade services were applied.

Life cycle plan
It is planned to keep the mentioned product sub-type in the Classic phase until further notice. After upgrades to PEC3 have ceased the product sub-type will remain for at least 10 years in Classic phase before it will be transferred to Limited phase.

The ABB life cycle management model is designed to manage an orderly transition to new replacement products or to choose from various lifetime extending services. At the same time the model ensures access to continuing support for our customers.

Recommended actions
Besides regular maintenance no further actions are required. Complete life cycle services are available for the mentioned product sub-type.
