2. Environmental Information

2.1 Content of hazardous materials

Declare the presence of hazardous materials in the product. Printed circuit boards are declared separately under 2.1.1 and should be excluded from the declaration in the table below.

(1) Strive to declare the quantity. This is optional, however, since it is today sometimes difficult to retrieve such information, especially regarding supplied components.

2.1.1 Printed circuit boards

Specify the amount of printed circuit boards used in the product by declaring the total board surface:

- ☐ < 1 dm²
- ☑ 1-10 dm²
- ☑ > 10 dm²
- ☑ No printed circuit boards used in the product
2.2 Recycling information

Is recycling information for the product available?

☑ Yes  Ref. Document:..............................................................
☒ No

If No, please specify, in the table below, the component/part/physical position where the material is present:

2.3 Energy use and/or losses during the operation of the product

Is energy use and/or losses during operation of the product specified in the product documentation?

☒ Yes  Ref. Document: See technical data in catalogue
☐ No
☐ Not relevant
