

# Advanced MV breaker predictive analytics for a large cigarettes manufacturer

## APPLICATION

Food & Beverage

## COUNTRY / CUSTOMER / SITE

China / Cigarette producer

## CUSTOMER NEEDS

Digitalize MV equipment to improve the operation efficiency and reduce unexpected outage time. Two switchgears 10kV and 35kV

## SOLUTION

Upgrade of existing MV breakers ABB VD4 to the digital smart version iVD4, including temperature sensors (smart arms) and MyRemoteCare Ability™ solution, running advanced analytics (performance model)
