

PRODUCT LIFE CYCLE STATEMENT

ACSM1

The ABB life cycle management model is designed to manage an orderly transition to new replacement products or to choose from various lifetime extending services. At the same time the model ensures access to continuing support for our customers.

Active

Limited

Obsolete

Full range of life cycle services and support

Limited range of life cycle services and support

Replacement and end-of-life services

Current life cycle status

ACSM1 product types are in the Classic life cycle phase since 1.1.2021, according to the ABB life cycle model outlined above.

Life cycle plan

It is planned to keep ACSM1 in the Classic phase until the end of 2023, after which it will be transferred to the Limited phase for 1 year only.

Product availability in Classic phase

During Classic phase new modules, for the following product types, will be available as spare parts until further notice.

Product types	Frame size
ACSM1-04AS/AM	A-D, E, G1-G2
ACSM1-04AL	A-D, E
ACSM1-204MAR	A-D

Contact your local ABB for availability and factory-installed optional devices.

Recommended actions

No actions are required. Full range of life cycle services and support are available during the Classic phase.
