1 Features

- Plug-in module for fitting in 19” racks or desktop housing (only EMU 01).
- Ready for connection to a workstation rack-mounted WSR xx or Hewlett Packard Workstations HP 712 / 100 MHz (WSD 13) or HP C110 (WSD 15)
- Suitable for use in industrial environments

2 Applications

Mass storage unit with removable storage media for non-volatile storage of
- system, text and configuration data,
- archiving process data in the form of trends or reports,
- loading external software,
- and for making data available for online documentation and online help.
3 Description

The EMU 0x external memory units are constructed as 19" plug-in modules for fitting in racks. The EMU 02 is equipped with its own 24 V power supply unit. The EMU 01 is also available in a desktop version with a lockable transparent protective door. All models are ready for connection to a workstation rack-mounted WSR xx or Hewlett Packard Workstations HP 712 / 100 MHz (WSD 13) or HP C110 (WSD 15). They can therefore also be used in industrial environments.

The external memory units can be fitted with the following mass storage drives for use with removable storage media:

- DAT drives for DDS magnetic tapes
- CD-ROM drives for compact disks
- MO drives for magneto-optical disks (only available in the EMU 02)

Digital Data Storage magnetic tapes can be written to and read from in a non-volatile manner. They can therefore be used in a broad range of situations both for archiving and for loading external data.

Compact disks however can only be read from (Read Only Memory). They are used exclusively for loading external data, e.g. for ONLINE documentation and ONLINE help.

Magneto optical disks can also be written to and read from in a non-volatile manner. They can therefore be used as an alternative to DAT drives.

The (safe-guarded) power supply (EMU 01 with 12 V, EMU 02 with 24 V) is provided by the rack-mounted workstation WSR xx.

(Exception: EMU 01 / 02 as 230 V version).
4 Overview of connections

Connection EMU 01 to WSR 01

Connection EMU 01 to WSD

Connection EMU 02 to WSR 01/10
Connection EMU 02 to WSD
## 5 Technical data (general)

### Description:

#### Dimensions of table-top casing

<table>

## Additional order information

- Desktop housing with 5/12 VDC power supply from WSR BA Number 302
- Desktop housing with 115/230 VAC power supply (incl. AC 451) BA Number 303
- Delivery
- Unpacked for installation in cabinet in HGS BA Number 601
- Delivery
- Transport packing for on-site installation BA Number 602
- Assembly materials

| 0 | none (for installation in housing that is already present) |
| 1 | with 19" module rack |
# 8 Order information for EMU 02

<table>
<thead>
<tr>
<th>Order number</th>
<th>Description</th>
<th>Delivery times</th>

<td>Drive accommodation</td>
<td>x x 0 0 0 0</td>
</tr>
</tbody>
</table>

### Additional order information

- **Delivery**
  - Unpacked for installation in cabinet in HGS **BA Number 601**
  - Transport packing for on-site installation **BA Number 602**

- **Auxiliary power connection**
  - 1: 24 V DC with 2 m supply cable AC 412
  - 2: 115/230 V AC with supply cable AC 451, SCSI cable 2 m AC 103 LD/HD, SCSI Termination AP 100

- **Assembly materials**
  - 0: none (for installation in housing that is already present), with SCSI cable 20.5 m AC 102 LD/LD
  - 1: with 19" module rack, with SCSI cable 2 m AC 101 LD/LD
9 Order information for accessories

<table>
<thead>
<tr>
<th>Order number</th>
<th>Description</th>
<th>Delivery times</th>
