

Repair services

Load cells, gauges and flatness systems

From simple spares replacements to complete overhaul ABB Local Service Centers offer the perfect environment to repair your product

Measurement made easy

Tested and repaired products back to normal operation

Genuine spare parts

Using genuine spare parts, your load cells, gauges and flatness systems will continue to operate as designed. The product is repaired according to the original specification.

Up to 2 years warranty

ABB provides a 2-year warranty for repaired load cells, sensors and gauges, and a 1-year warranty for replaced components.

Cleaning, inspection and testing

Before repair, the products are thoroughly cleaned, and after repair, tested in different conditions. Test conditions are dry condition, wet condition or calibration press depending on type of product and repair.

Local Service Centers

The ABB Local Service Centers in Asia, America and Europe offer a consistent approach to the repair process.

Certified and well-trained specialists equipped with necessary testing and calibration equipment vouch for high-quality repair and testing as well as trouble-free use of repaired products.
