A diverse portfolio
Designs for every lifestyle

At ABB we attach great importance to the details, whether it’s a switch’s acoustics, its feel, surface, color or material. And it’s the range of these details that means we can now offer you an extensive portfolio of switches to suit both you and your living situation.
An element of sophistication

Crafted exclusively in the finest materials -steel and glass- the Millenium range will turn any interior design into a timeless piece of art.
Millenium
Strikingly impressive

A Millenium switch is engineered to impress. It perfectly complements cool environments with its striking, ultra-slim design crafted in a classy metal finish and chemically strengthened glass. A superior feeling to the touch. Available in multiple formats to meet every customer requirement.

01 stainless steel, premium rocker switch
02 stainless steel, 3-gang rocker switch
03 stainless steel, BS switched socket outlet
04 stainless steel, standard rocker switch
05 soft black, standard rocker switch
06 matt gold, standard rocker switch
07 antique gold, standard rocker switch
08 white glass, premium rocker switch
09 black glass, premium rocker switch
Naturally aesthetic

Nature rarely presents us with straight lines and the Concept bs range of switches reflects this. Rather than rigidly sticking to squares, it steps outside the box to add some subtle curves to your interior design.
01 white, 2gang BS switched socket outlet

02 white

03 white, switched socket outlet

04 white, 2gang telephone and computer socket outlet

05 silver

06 silver, switched socket outlet

07 silver, 2gang telephone and computer socket outlet
Concept bs
A natural flow

With their distinctive curves, Concept bs switches add an extra subtlety to your room design. Shaped around straight lines, yet not restricted to them, the range comes in a wide choice of colours, is packed with functionality and helps your ideas flow in line with their individual design.
Contemporary touches

Small features come together to create a stylish bigger picture. Our Busch-axcent® switch range stands for this interior design credo, combining consistently strong linear design with a variety of colors.
Busch-axcent® combines the power of purity and quality of high class materials – glass, thermoplastic, and metal – with contrasting colors that perfectly reflect your style.

Mounting sets for Busch-axcent® flat allow flush-mounted installation of the Busch-axcent® range.

Busch-axcent®
Lively and rich in contrast

The Busch-axcent® color spectrum is characterized by its vibrancy and choice. This is often applied in public buildings as a color-coded guiding system.
NEW
06 studio white / amber glass
07 studio white / entrée-grey
08 studio white / titanium
09 anthracite / platinum
10 black matt / black
Your own living space deserves the very best; Busch-dynasty® offers just that. Handcrafted and developed together with international design experts, this switch offers an almost lavishly luxurious aesthetic.

Illustration in original size
The cover frame measures 106 mm x 106 mm x 12 mm (w x h x d). Material: the rocker is made of thermoplastic (PC), impact and break-proof, UV-resistant, PVC- and halogen-free; the frame is made of real metal surface except anthracite and ivory white.
Busch-dynasty®
Each switch is one-of-a-kind

The brass used for this switch range is hand polished or brushed for an antique look and feel. The same care and attention is given to the rocker made of high-quality plastic – it’s also hand-painted or brushed. Busch-dynasty® gives you a genuinely unique specimen with its own personal touch.
06 polished brass, anthracite
07 antique brass, ivory white
08 antique brass, anthracite
09 ivory white
10 anthracite
Outstandingly consistent

Unwaveringly stylish and consistent in form, material and design: pure stainless steel offers 100% quality and durability.
pure stainless steel
One hundred percent

pure stainless steel uses 100% stainless steel for cover frames and switches. At the same time, an invisible anti-fingerprint coating ensures that you leave an impression but without the imprint.
01 2gang combination switch / socket outlet with shutter
02 2gang 1way switch
03 blind switch
04 switch with “Light” symbol
05 Busch-rotary dimmer
Clearly defined understatement

carat® makes a clear commitment to top-class design. Crystal-clear shapes and contrasting colors support a discreetly uncluttered interior design.
carat®
From clear to extravagant

carat® unites straight lines and authentic materials in an independent object. The independence which can be admired in this switch range meets the requirements of sophisticated architecture.
01 studio white / white glass
2gang combination switch / socket outlet with shutter

02 anthracite / stainless steel

03 studio white / glass black

04 ivory white / gold (24 carat)

05 studio white / bronze

06 studio white / chrome
The essentials broken down to the minimum

Straightforward, uncomplicated, minimized without compromise: When there’s nothing to distract you, you find peace and concentration. And discover absolute clarity in simple objectivity. future® linear stands for this clarity.
**future® linear**

Uncompromisingly clear

The appeal of future® linear lies in its uncompromisingly simple and precise design, which offers no surface for distraction. This switch range also offers a color palette that corresponds to any contemporary architectural concept.
Softtouch: stimulating colors with pleasant haptics and a hard-wearing surface

01 studio white matt*
02 2-gang combination switch / socket outlet with shutter studio white matt
03 black matt*
04 ivory white
05 studio white
06 aluminium silver
07 anthracite

* Softtouch: stimulating colors with pleasant haptics and a hard-wearing surface
Individual and balanced

With its dynamic form and color scheme, the solo® switch range adds a subtle, harmonious highlight and is a real eye-catcher in any room.
**solo®**

Straight lines with a gentle swing

Linear yet with a sense of swing: solo® focuses on contrasts in form and color. This switch range creates something truly special: a harmonious, relaxed appearance.
Multifunctionality
Technology that leaves nothing more to be desired

From light switches, through blind control to smart phone charging stations: Within our design ranges we offer you a comprehensive range of functions to meet all your requirements and ensure a uniformed appearance.
Our switch range not only meets every optical requirement, it meets all functional requirements too. Its clever grid system allows for 1 to 5-gang combination of more than 32 smart functions from stand-alone electronics to building automation solutions such as ABB free@home® or KNX.
Busch-Watchdog 180° KNX
