ABB Ability™ Symphony® Plus

S+ Operations 2.1

Life Cycle Update Pre-announcement

EXECUTIVE SUMMARY

This product update is to pre-announce a life cycle change affecting S+ Operations 2.1 in accordance with the ABB Life Cycle Policy as described in “[3BSE042159 PCP DCS Life Cycle Policy](#)”. S+ Operations 2.1 will transition to Limited life cycle phase effective 1st January 2026.

PRODUCTS CONCERNED

Product	Product ID	Version	Description
S+ Operations	8VZZ000030	2.1	Symphony Plus operator station software

PRODUCT DETAILS

S+ Operations 2.1 will change from Classic to Limited phase effective 1st January 2026 according to the ABB life cycle policy.

For all Melody and Procontrol P14 systems the successor of S+ Operations 2.1 SP1 is S+ Operations 2.3.

For all Harmony and SD based as well as SCADA systems, S+ Operations 3.3 or later is the successor of S+ Operations 2.1. S+ Operations 3.3 and 2.3 or later supports all previous features (please see further details in the release notes of the latest available version 3.3, 2.3 available in ABB Library: [8VZZ004411T3310](#), [7PAA011701T2300](#)).

The mapping of existing features to S+ Operations 3.3 or later is available. The license between S+ Operations 2.1 and 2.3/3.3 or later has changed and needs to be renewed. Depending on the Automation Software Maintenance level such an update might be included, or it may require an additional purchase.
