Description of Change: Tool Update

The tool for the above Catalog PNs has been refurbished at our manufacturing facility in Hungary.

An opportunity has been taken to improve previous product design to ensure that they are in line with our current product designs of Connector Interfaces. We have introduced better hinge and clip features to improve the performance and reduce the overall length.

There are minor variations in dimensions and markings of the finished product produced on the new tool, these are detailed in the attached drawings.

The new tool produces fully compliant product and has been tested for fit and function, ensuring compatibility with existing products.

Please note the company's policy is one of the continuous improvements and reserves the right to change specification at any time without prior notice.

For lead times and available stock of specific part numbers, please contact either the European Distribution Centre or Coleshill Customer support teams and sales offices.
