## Current life cycle status

EuroFlex series rack mount servo drives are in the Obsolete phase since 1.9.2017, according to the ABB life cycle model outlined above.

## Life cycle plan

The ABB life cycle management model is designed to manage an orderly transition to new replacement products or to choose from various lifetime extending services. At the same time the model ensures access to continuing support for our customers.

## Recommended actions

It is recommended to replace the existing installation with compatible latest generation products.

## Further information

For more information on drives life cycle management and available services contact your local ABB organization or at www.abb.com/drives.
