# G376e
# Drive Composer pro fundamentals, Internet course

## Course type

Internet course. Recommended browser is Google Chrome or Microsoft Edge.

## Course duration

The course duration is approximately 20 minutes.

## Course goal

This course gives an overview of the Drive Composer pro PC tool.

## Student profile

This course is intended for ABB's and authorized value providers' service and salespeople, end customers and partners.

## Recommended courses

- G371e All-compatible industrial drives, ACS880 series offering
- G3900e General purpose drives, ACS580 series
- G374e All-compatible panel fundamentals
- G375e Drive Composer entry fundamentals

## Course objectives

Upon completion of this course, you will be able to:

- Connect to multiple drives with Drive Composer pro
- Perform basic tasks with Drive Composer pro
- Describe basic functionality of Drive Composer pro
- Perform bit masking
- Compare data between a backup file and a drive

## Main topics

- Basic functionality of Drive Composer pro
- Connecting and monitoring multiple drives
- Data comparison with backup
- Connection with panel, USB and Ethernet
- Control diagrams

## Notes

If you have no experience of working with drives, it is highly recommended to take a hands-on course in addition to this course, to be able to utilize the drive to its full potential.
