

INDUSTRIAL AUTOMATION REPAIR SERVICES

# Repair in a box

## Fast, easy repair for mission critical parts

Timely repair service is key to minimizing system downtime and maximizing capital investment. ABB 'Repair in a Box' makes it easy to return, track, and obtain repaired, mission critical spare parts.

**Prepaid shipping**

**Test fees waived\***

**Durable container**

**ESD packaging**

**Antistatic foam**

**Easy to return, track, and obtain critical repairs**  
 ABB repair service is now available with prepaid return shipping to the ABB repair center and test fees waived for items that fit in 'Repair in a Box' containers.

ABB 'Repair in a Box' eliminates the hassle of finding and securely packing repair items. Each shipping container includes a static shielding bag and antistatic finger foam securely attached to the container protecting sensitive electronics from static discharge, vibration and impact shock during shipment.

'Repair in a Box' containers come in 3 convenient sizes accommodating critical spares of various shapes and proportions. Add the different container sizes to your ERP system with re-order points to make repair as simple as 1-2-3:

	Material #	Size
Large	RIB33	12 1/2 W, 12 7/8 L, 4 9/16 H
Medium	RIB22	9 13/16 W, 17 1/2 L, 2 9/16 H
Small	RIB11	9 11/16 W, 12 3/4 L, 2 7/16 H
