

PRODUCT HIGHLIGHTS

Comfort Crimp® ERG4001 compression tool

Setting the standard for manual crimp tools.

Sta-Kon®

The Sta-Kon® Comfort Crimp ERG4001 compression tool provides the user the safest, easiest-to-use crimping hand tool in the industry, with maximum long-term comfort, while providing the most reliable crimp every time.

Key differentiating features

- **Patented Shure Stake® mechanism** — Proprietary design ensures a proper crimp every time by not releasing the terminal until a proper crimp has been completed.
- **Comfort grip** — Up to 75% less force required than competitive tools through patented crimping mechanics, ergonomics and over-molded cushion grips. This significantly reduces user strain, making the Sta-Kon Comfort Crimp ERG4001 the safest and easiest-to-use tool on the market.
- **Crimp Assist® handle** — Special foot at the bottom of the handle stabilizes the tool on a workspace surface, providing significant leverage and reducing strain when crimping large terminals.

Applicable industries

Commercial and institutional buildings

Metals and mining

Rail

Utility industry

Data centers

Oil and gas

Renewable energy

Wind power

Food and beverage

Power generation

Single and multi-family housing
