

DATA SHEET

PowerMark Gold™ load centers

150-200 amp 32/42 circuit

PowerMark Gold load centers are designed to control the distribution of energy through the house. PowerMark Gold load centers' unique features enable a safe, fast, and easy installation. At the same time, they deliver benefits in design, function, and quality that are intuitive and impactful.

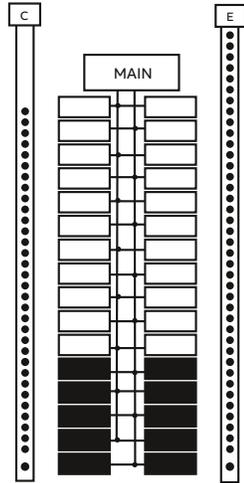

Features and benefits

- 42-space breaker capacity
- Right neutral bar has 40 holes
- Reduced need for additional field installed ground bars
- (20) 1/2" (THQP) positions with (22) 1" (THQL) positions remaining
- A common interior on the 150–200 amp devices
- Single phase, three wire, 120/240 VAC, 22 kAIC rated
- UL Listed (Panelboards No. 67)
 - Service barriers included for factory installed main circuit breaker
- 60°C/75°C conductor rating
- Suitable for use as Service Entrance Equipment when installed in accordance with the National Electric Code
