Protection and control REX610

All-in-one protection for any basic power distribution application

All-in-one coverage

– Rich in functionality

– Modular and scalable design

– Extensive range of default functionality

– Flexible and cost-effective

Future-proof and flexible

– New functionality continuously accessible via firmware updates

– Modifications possible for the entire relay lifetime with modular and scalable design

– IEC 61850-compliant communication and interoperability

Simplicity as a hallmark

– Easy to order, set up, use, maintain – and keep in stock

– Pure plug-and-play solution with modular hardware unlocking all available functionality

– Easy addition, removal and replacement of modules

– Withdrawable plug-in unit for short meantime to repair

Lifelong support

– Extensive life cycle services for safe, reliable and cost-efficient protection solutions

– Web-based data-sharing and backup service – Data Care – with access to firmware updates as optional add-on

– Tailor-made retrofit adapter for smooth replacement of SPACOM with REX610 relays
