

Energy Monitoring Solutions

DESCRIPTION	<p>ABB's holistic new energy and asset management concept for commercial and industrial buildings uses digital solutions and services to deliver energy and operating cost savings. ABB's portfolio scales to suit a range of small to medium sized businesses, enabling electrical installers, building owners, facility and energy managers to collect and visualize their data – both on-site and remotely. That means optimum energy consumption and allocation, continuous operations, and simplified maintenance with scalable solutions for energy and asset management could be realized.</p> <p>During this training, participants will explore energy solutions offered by ABB.</p>
PREQUSITE	Basic knowledge of standard electrical installations
TARGET GROUP	Local ABB organization, System Integrators
LANGUAGE	English
GENERAL INFORMATION	
ABB contact	Regional Competence Center Singapore , rccasia-support@abb.com
Date	10 th September 2020
Training location	RCCASIA Training Room
Trainer	RCCASIA Trainer
DAY 1 - TUESDAY, 10TH SEPTEMBER	RCCASIA TRAINING ROOM
09:00	Welcome
09:30	Solutions for energy management with KNX Energy Modules and Actuators Energy Monitoring with Energy Gateways and Analysers
10:00	Coffee / Tea Break
10:15	Different possibilities of decentral energy measurement and recording in a load circuit on the basis of the KNX standard Products: Energy Actuator SE/S and Energy Module EM/S
13:00	Lunch
13:45	Recording, evaluation and displaying of different consumption values (electricity, water, gas) in a building Products
15:15	Coffee / Tea Break
15:30	Exercise
17:00	End

SEMINAR DETAILS

Participation:

- The training is open to ABB employees and their customers.
- The participation max 8 participants.
- The training language will be English.
- For further information please contact your [local ABB](#).
