Introduction

In this document we have collected all apps, tools and online services offered for the Building & Home Automation Solutions (BHAS) portfolio.

First, tools that support the complete BHAS portfolio are presented. The specific tools of the individual product portfolios are shown afterwards. Direct links to the tool or the website for a direct download are provided to guarantee a quick use.

Four different tool types are distinguished in this document:

- **ETS Apps:** The ETS is used to install and configure an KNX system. For special wishes and additional functionalities ETS apps are necessary. These apps just need to be downloaded from the ETS Shop, installed and licensed in the used ETS.
- **Mobile Apps:** This kind of applications are mainly used on smartphones or tablets and some also on laptops. You can use them for configure or control your devices.
- **Service Tools:** Support you during planning, commissioning and service of the installations.
- **Configurators:** With configurators it is possible to adapt the product functions or specifications to your individual needs.

General Service & Support Tools

To support you in your daily work we have implemented a few tools to make your life easier. Below you will find a list of the most important tools with a link for direct use.

Engineering Guide Database

The Engineering Guide Database offers you a selection of detailed technical information and documentation to support you during the design, installation and commissioning of ABB's Building Automation products and solutions.

[Link](#)

FAQ Tool

Our FAQ database offers you a simple and quick 24/7 self-support service. Should you have a technical question to a product or application, you have the possibility to check for yourself if a fitting answer already exists in the support community database. Of course, should the answer not yet be available, our support team continue to remain at your service.

[Link](#)

Software Repository

Are you looking for a particular piece of software for your device? Simply visit our Software Repository and enter the product details you are searching for. You will immediately receive a structured list of all current and older software versions (ETS applications, Firmware, etc.) applicable to this product. This applies not only to the current portfolio but also for all legacy products. To make things as handy as possible, you can then directly download the individual software files out of the tool.

[Link](#)

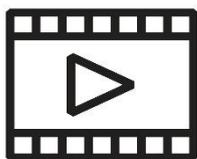

News-Ticker

With the Building Automation News-Ticker you can see all important technical news and information about our product range immediately. Simply subscribe to the news service and receive a short message informing you of latest information.

[Link](#)

YouTube Channel

Visit our Building and Home Automation Solutions YouTube channel and discover multiple videos about our product portfolio. In several how-to videos we are explaining the handling, installation and interaction of diverse products and how to solve occurring issues. Missed a webinar? No problem! All our webinar recordings are stored in this YouTube channel too.

Mobile Apps

The following apps can be used on your smartphone or tablet and some also on the laptop.

Tool Name	Usage	Price	More Information / Download
ABB Connect	<p>With ABB Connect you can:</p> <ul style="list-style-type: none"> • Browse, search or scan. Find the latest product, service and technical details in one place. • Access the complete world of ABB electrification information. • Tap and stay connected. Keep the latest ABB insights at your fingertips with our News section. • Access the broadest range of offline product information or connect to access everything in 26 languages. Connect to your electrification solutions with your digital assistant, access the latest news and tools to create your own digital workspace. 	Free of charge	<p>App Store Google Play Microsoft Store</p> <p>ABB Website</p>
	<p>Supported Products: Whole ABB portfolio</p>		
Smart Home Explorer	<p>With this virtual 3D application you can learn more about our smart home solutions. Start the app and get inspired by the innovative scenarios in the Smart Home.</p>	Free of charge	<p>App Store Google Play</p> <p>Additionally required: Glasses for 3D applications (VR Cardboard)</p>
	<p>Supported Products: Busch-Jaeger Smart Home portfolio</p>		
3D-LiveView	<p>Discover ABB's Smart Buildings portfolio with the 3D-LiveView app. The assortment includes wiring accessories such as light switches and sockets, door communication systems and high-end smart buildings products such as ABB i-bus® KNX and ABB-free@home sensors.</p>	Free of charge	<p>App Store (BJE Version) Google Play (ABB Version)</p> <p>Tracking image (ABB Version) Tracking image (BJE Version)</p>
	<p>With 3D-LiveView, you can view our products live and in 3D on your own wall via augmented reality. If you have chosen your favorite design the app also helps you to locate the closest contact, be it an ABB office or an installer or distributor. Furthermore, you can use the App to take a look at your individual ABB-tacteo KNX sensors, that you have configured via the ABB-tacteo configurator.</p>		
<p>Supported Products: ABB i-bus® KNX, ABB-free@home sensors, wiring accessories, door communication portfolio</p>			

Service Tools

To support you during the planning, installation and commissioning of your system.

Tool Name	Usage	Price	More Information / Download
Labeling Tool	Create labels for your desired sensor. After designing your label you are able to download a pdf file, print it and use it with the label carrier on your sensor.	Free of charge	Labeling Service
	Supported Products: Flush-mounted product ranges (carat®, Busch-dynasty®, pure stainless steel, solo®, Busch-axcent®, future® linear), Flush-mounted, water-protected, Surface-mounted dry / Surface-mounted water-protected (ocean®), Safety devices (future® linear, WaveLINE, Residual current detector), Busch-Funkcontrol WaveLINE, ZigBee Light Link, ABB i-bus® KNX (Busch-triton®, ABB Tenton®, solo® KNX sensors), Door Communication (Busch-Welcome®)		

Configurators

To adapt the product functions or specifications to your individual needs.

Tool Name	Usage	Price	More Information / Download
Smart Home Configurator	The tool enables rough and detailed planning of an electrical installation incl. lighting, heating, blinds, sockets and data outlets. As a result, you will receive a detailed parts list, project price and project documentation.	Free of charge	To the Tool How-to video (German)
	Supported Products: free@home, Conventional Wiring Accessories, secure@home, GM/A 8.1		

i-bus® KNX

The following tables give an overview of the KNX tooling offered by ABB.

ETS Apps

For more information and how to get started with ETS apps have a look on this [video](#).

Tool Name	Usage	Price	More Information / Download
ABB AC/S Configuration App	This app is used to configure the AC/S 1.x.1 Application Controllers. The graphical user interface of this app allows an intuitive parameterization of the application-specific automation modules (ASM).	Free of charge	KNX Onlineshop (ABB Version) KNX Onlineshop (BJE Version)
	Supported Products: AC/S1.1.1, AC/S1.1.11, AC/S1.2.1		
ABB Automation Builder	This app integrates the software suite ABB Automation Builder into ETS.	Free of charge	KNX Onlineshop
	Supported Products: BAC/S1.5.1		
ABB GM/A 8.1 Configuration App	This app is used to import the KNX configuration file for the GM/A 8.1 KNX Security Panel into ETS.	Free of charge	KNX Onlineshop
	Supported Products: GM/A8.1		
ABB IoT Dashboard ETS App	The IoT Dashboard ETS App enables you to export the complete building structure and all group addresses from the ETS into the IoT Dashboard.	Free of charge	KNX Onlineshop (ABB Version) KNX Onlineshop (BJE Version)
	Supported Products: DBS/S1.1.1.1, DBS/S1.1.1.11		
ABB MOOVnGROUP	Graphical studio for KNX integration, offering a graphical, flexible and user-friendly interface based on building layouts.	3,95€	KNX Onlineshop
	Supported Products: Can template any device of any manufacturer		
ABB SUG/U 1.1 Configuration	This App is needed for configuration of the ABB SUG/U 1.1 Split Unit Gateway. The manufacturer of the split unit and the model of the remote are loaded into the ETS application.	Free of charge	KNX Onlineshop (ABB Version) KNX Onlineshop (BJE Version)
	Supported Products: SUG/U1.1, 6186/40		
ABB Touch DCA 1.0	The app is used for the convenient configuration of SmartTouch, RoomTouch and IPTouch.	Free of charge	KNX Onlineshop (ABB Version) KNX Onlineshop (BJE Version)
	Supported Products: RT/U30.0.1-825, RT/U30.0.1-811, 6136/07-811-500, 6136/07-825-500, H8236-5W, H8236-5B, H8236-4W, H8236-4B, H8237-5W, H8237-5B, H8237-4W, H8237-4B		
ABB Update Copy Convert	<i>Update:</i> Changes the application program to a later or earlier version while retaining current configurations.	Free of charge	KNX Onlineshop (ABB Version) KNX Onlineshop (BJE Version)
	<i>Convert:</i> Transfers/adopts a configuration from an identical or compatible source device.		

	<p><i>Channel Copy:</i> Copies a channel configuration to other channels on a multichannel device.</p> <p><i>Channel Exchange:</i> Exchanges configurations between two channels on a multichannel device.</p> <p><i>Import/Export:</i> Saves and reads device configurations as external files.</p> <p>FAQ – Difference Update Copy Convert, KNX Bus Update and Firmware Update 2.0</p>		
	<p>Supported Products: ABB i-bus® KNX portfolio (deviations possible)</p>		
Export for IP-Project	<p>This ETS App is intended to exchange Group Address information of Busch-ComfortTouch® panels from Busch-Jaeger or ABB between ETS and IPP.</p> <p>The ETS App provides IPP data with recent changes in ETS and vice versa ETS data in IPP. By pressing the import button you can import XML files that were created by IPP into ETS. Using the export button you can generate an XML file for import into IPP.</p>	Free of charge	KNX Onlineshop
	<p>Supported Products: 8136/12-811-500, 8136/12-825-500, 8136/09-811-500, 8136/09-825-500</p>		
KNX Bus Update	<p>The ETS app “KNX Bus Update” serves for the firmware Update of various ABB KNX devices via the ETS. The current firmware files can be downloaded automatically from the Internet.</p> <p>The app can be used with ETS4 or higher.</p> <p>Attention: Replaced by the KNX Firmware Update 2.0 App. There will be no new update files for the KNX Bus Update app in the future.</p> <p>FAQ – Difference Update Copy Convert, KNX Bus Update and Firmware Update 2.0</p>	Free of charge	<p>KNX Onlineshop (ABB Version)</p> <p>KNX Onlineshop (BJE Version)</p> <p>Step-by-Step guide</p>
	<p>Supported Products: ABB i-bus® KNX portfolio (deviations possible)</p>		
KNX Firmware Update 2.0	<p>The ETS app "ABB Firmware Update 2.0" serves for updating the firmware of different ABB KNX devices directly via the KNX bus. The latest firmware files can be downloaded automatically from the Internet or imported manually.</p> <p>The app can be used with the ETS 5 or higher.</p> <p>Attention: This app replaces the "KNX Bus Update" app.</p> <p>FAQ – Difference Update Copy Convert, KNX Bus Update and Firmware Update 2.0</p>	Free of charge	<p>KNX Onlineshop (ABB Version)</p> <p>KNX Onlineshop (BJE Version)</p>
	<p>Supported Products: ABB i-bus® KNX portfolio (deviations possible)</p>		
PowerTool	<p>This Plug-in is needed for configure mentioned devices in the ETS.</p> <p>Legacy tool - No longer supported.</p>	Free of charge	To the Tool

<p>Supported Products: 6108/01-500, 6108/02-500, 6108/03-500, 6108/04-500, 6108/05-500, 6108/08, 6108/08-500, 6120/12-101-500, 6120/12-101-508, 6120/12-101-515, 6120/12-500, 6120/12-508, 6120/13-500, 6120/13-508, 6122/01-8xx-500, 6122/02-8xx-500, 6122/20-981-500, 6123/2x-500, 6124/01-8xx-500, 6124/08-981-500, 6124/20-981-500, 6124-84-500-102, 6125/01-8xx-500, 6125/02-8xx-500, 6125/20-981-500, 6126/01-8xx-500, 6126/02-8xx-500, 6126/20-981-500, 6127/01-8xx-500, 6127/02-8xx-500, 6128/01-8xx-500, 6128-84-500-102, 6129/01-8xx-500, 6129/20-981-500, 6129/21-981-500, 6131/10-xxx-500, 6131/11-xxx-500, 6131/20-xxx-500, 6131/21-xxx-500, 6131/30-xxx-500, 6131/31-xxx-500, 6131/40-24-500, 6136/07-8xx-500, 6149/21-500, 6179/01-2xx-500, 6179/02-2xx-500, 6197/12-101-500, 6197/12-500, 6197/13-101-500, 6197/13-500, 6197/14-101-500, 6197/14-500, 6197/15-101-500, 6197/15-500, 6197/52-101-500, 6197/52-500, 6197/53-101-500, 6197/53-500, 6340-xx(-101)-500, 6341-xxx(-101)-500, 6342-xxx(-101)-500, 6344-xxx(-101)-500, 6345-xxx(-101)-500, 6346/10(-101)-500, 6346/11(-101)-500, 6346/12(-101)-500, 6347-810-500, 6348-xxx(-101)-500, 6349-xxx(-101)-500, 6350-825(-101)-500, 6351/08-825-500, 6351-825-101-500, 6352-24G(-101)-500, 6352-xxx(-101)-500, 6353/20-860-500, 6353/30-860-500, 6353/40-860-500, 6353/50-860-500, 6354 U-500, 6355 U-500, 6356 U-500</p>

Mobile Apps

The following apps can be used on your smartphone or tablet and some also on the laptop.

Tool Name	Usage	Price	More Information / Download
Busch-ComfortTouch®	<p>Switch or dim the lights, operate your blinds and heating/cooling or switch scenes from a combination of the listed functions - everything remote-controlled via the ComfortTouch App. There is the option of programming several ComfortTouch® devices. The ComfortTouch App can be freely configured. This allows you to integrate your own room images for example.</p> <p>Functions:</p> <ul style="list-style-type: none"> • Switching • Dimming • Blind • Value transmitter • Scene control • Room temperature control • RGB control <p>Please note that only the ComfortTouch 9/12.1 (with firmware version 1.1 or higher) can be remote controlled in combination with the App.</p>	Free of charge	<p>App Store Google Play</p> <p>App Manual (German)</p>
	<p>Supported Products: 8136/12-811-500, 8136/12-811, 8136/12-825-500, 8136/12-825, 8136/09-811-500, 8136/09-811, 8136/09-825-500, 8136/09-825</p>		
Busch-ControlTouch®	<p>The ControlTouch app is a client for the Busch-ControlTouch® device. Build your own scenes and time programs for your home and change them when ever you want.</p> <p>A selection of the functions:</p> <ul style="list-style-type: none"> • Change scenes directly in the app • Optional "live preview" of the scenes • Add new time programm, change or remove them • Pan, tilt and zoom support for IP cameras • Multiple accounts and profiles support • Alarm messages with support for push messages and email 	Free of charge	<p>App Store Google Play</p> <p>For the visualisation of the Busch-ControlTouch® on your desktop use the Windows application.</p>

	<ul style="list-style-type: none"> • Protect pages with a PIN 		
	Supported Products: 6136/APP-500, 6136/APP		
Busch-Wächter® Remote control	<p>This ABB presence detector App was developed for comfortable remote control and adjustment of the new generation of ABB presence detectors with integrated Bluetooth interface via smartphones or tablets.</p> <p>You can choose and adjust following functions:</p> <ul style="list-style-type: none"> • Selection of the presence detector to be controlled via a list of devices within a reach • Change the operation mode between installer and end user • Direct switching on and dimming of the connected load (e.g. a light) • Energy consumption monitoring (rough overview of energy cost with/without presence detectors) • Activation of a presence simulation at a house (if you are not at home), the same way to set a basic brightness and nightlight (start time and end time, illumination level) • Switching the light to permanent on or permanent off (adjustable time) • Setting the device (Bluetooth) name and parameters • Release of specific functions to user • Adjustment of the sensitivity of each PIR sensor • Managing data and profiles offline and backup / synchronizing data 	Free of charge	App Store Google Play
	Supported Products: 6854 AGM-xxx, 6855 AGM-xxx, 6847/11 AGM-xxx, 6847/8 AGM-xxx, 6847 AGS-xxx, 6848 AGM-xxx, 6867 AGM-xxx, 6747 AGM-xxx, 6853 AGM-xxx, 6845/11 AGM-xxx		
Busch-VoiceControl	<p>This app enables easy setup and maintenance for your device.</p> <p>Functions:</p> <ul style="list-style-type: none"> • Registration • Set up the device • HomeKit configuration and automatic room allocation • Importing software updates for the device • Several other configuration options 	Free of charge	App Store
	Supported Products: VCO/S99.1, VCO/S99.11		

Service Tools

To support you during the planning, installation and commissioning of your system.

Tool Name	Usage	Price	More Information / Download
ABB i-bus® Tool	<p>Supports system integrators during commissioning and service of KNX installations.</p> <p>Firmware updates via i-bus® Tool for certain decives.</p>	Free of charge	ABB Website

	<p>IP discovery for IP devices (IPx/S, GM/A, ABA/S, QA/S): Scanning IP devices with the corresponding IP address in an installation</p> <p>S-Bus Calculator for GM/A: Detect and measure the power consumption of the installation</p>		
	<p>Supported Products: AA/A2.1.2, AA/S4.1.2, ABA/S1.2.1, AC/S1.1.1, AC/S1.2.1, AE/S4.1.1.3, BCI/S1.1.1, DG/S1.1, DG/S1.16.1, DG/S1.64.1.1, DG/S2.64.1.1, DG/S2.64.1.1, DG/S1.64.5.1, DG/S2.64.5.1, DGN/S1.16.1, DLR/A4.8.1.1, DLR/S8.16.M, EG/A32.2.1, EM/S3.16.1, FCA/S1.1.1.2, FCA/S1.1.2.2, FCA/S1.2.1.2, FCA/S1.2.2.2, FCC/S1.1.1.1, FCC/S1.1.2.1, FCC/S1.2.1.1, FCC/S1.2.2.1, FCC/S1.3.1.1, FCC/S1.3.2.1, FCC/S1.4.1.1, FCC/S1.5.1.1, FCC/S1.5.2.1, GM/A8.1, HCC/S2.1.2.1, HCC/S2.2.1.1, HCC/S2.2.2.1, HCC/S2.1.1.1, JRA/S2.230.1.1, JRA/S2.230.2.1, JRA/S2.230.5.1, JRA/S4.230.1.1, JRA/S4.230.2.1, JRA/S4.230.5.1, JRA/S4.24.5.1, JRA/S8.230.1.1, JRA/S8.230.2.1, JRA/S8.230.5.1, LK/S4.2, LR/S2.16.1, LR/S4.16.1, SE/S3.16.1, SUG/U1.1, SV/S30.320.2.1, SV/S30.640.5.1, UD/S1.1260.2.1, UD/S2.315.2.1, UD/S4.210.2.1, UD/S4.315.2.1, UD/S6.210.2.1, UD/S6.316.2.1, VC/S4.1.1, VC/S4.2.1, WS/S4.1.1.2, WZ/S1.3.1.2, IPS/S3.1.1, IPR/S3.1.1, IPRS/3.5.1, IPR/S2.1, IPS/S2.1, TG/S3.2, IG/S1.1, QA/S1.16.1, QA/S3.16.1, QA/S4.16.1, QA/S3.64.1, QA/S4.64.1</p>		
Building Care Service	The Building Care Service offers an easy way of accessing a building via the IoT Dashboard Server from any place in the world. Security plays an important role for ABB, the access works according to the highest ABB Ability security standards via a secure tunnel to the IoT dashboard.	10€ per month	<p>ABB Ability Marketplace</p> <p>myBuildings Portal</p> <p>myBUSCH-JAEGER Portal</p>
	<p>Supported Products: DBS/S1.1.1.1, DBS/S1.1.1.11</p>		
IoT Dashboard	For the control and display of all building functions.	Free of charge	Running on the IoT Dashboard Server
	<p>Supported Products: DBS/S1.1.1.1, DBS/S1.1.1.11</p>		
IoT Dashboard API	Open API for an easy integration into other systems available.	Free of charge	Available as on-device API (remotely via Building Care Service, TBC)
	<p>Supported Products: DBS/S1.1.1.1, DBS/S1.1.1.11</p>		
IoT Dashboard App „DALI Manager“	The DALI Manager offers a quick and easy way to extend the functionality of the ABB KNX IoT Dashboard Server to control, program and maintain DALI lighting systems in a Smart Building. It offers the possibility to monitor and automatically check the important functions from everywhere in the world.	20€ per month	<p>ABB Ability Marketplace</p> <p>myBuildings Portal</p> <p>myBUSCH-JAEGER Portal</p>
	<p>Supported Products: DBS/S1.1.1.1, DBS/S1.1.1.11</p>		
IoT Dashboard Tool	Tool for electrical installers for the configuration of the IoT Dashboard Server. Includes predefined modules and controls.	Free of charge	To the Tool
	<p>Supported Products: DBS/S1.1.1.1, DBS/S1.1.1.11</p>		
IP Finder	With this tool you can find your Busch-ControlTouch or Busch-VoiceControl in your network.	Free of charge	Microsoft iOS
	<p>Supported Products: VCO/S99.1, VCO/S99.11, 6136/APP-500, 6136/APP</p>		

Configurators

To adapt the product functions or specifications to your individual needs.

Tool Name	Usage	Price	More Information / Download
ABB-tacteo Configurator	With this tool you can configure the icons and / or text which are shown on your tacteo sensor. After the configuration you get a Design ID. With this ID you can order your sensor at electrical wholesaler.	Free of charge	To the Tool How-to video
	Supported Products: TA/U3.1.1-CG, TA/U3.1.11-CG, TA/U3.2.1-CG, TA/U3.2.11-CG, TA/U3.3.1-CG, TA/U3.3.11-CG, TB/U1.1.1-CG, TB/U1.1.11-CG, TB/U1.2.1-CG, TB/U1.2.11-CG, TB/U1.3.1-CG, TB/U1.3.11-CG, TB/U12.7.1-CG, TB/U12.7.11-CG, TB/U12.8.1-CG, TB/U12.8.11-CG, TB/U2.4.1-CG, TB/U2.4.11-CG, TB/U2.5.1-CG, TB/U2.5.11-CG, TB/U2.7.1-CG, TB/U2.7.11-CG, TB/U2.8.1-CG, TB/U2.8.11-CG, TB/U4.4.1-CG, TB/U4.4.11-CG, TB/U4.5.1-CG, TB/U4.5.11-CG, TB/U4.7.1-CG, TB/U4.7.11-CG, TB/U4.8.1-CG, TB/U4.8.11-CG, TB/U6.4.1-CG, TB/U6.4.11-CG, TB/U6.5.1-CG, TB/U6.5.11-CG, TB/U6.7.1-CG, TB/U6.7.11-CG, TB/U6.8.1-CG, TB/U6.8.11-CG, TBR/U4.7.1-CG, TBR/U4.7.11-CG, TBR/U4.8.1-CG, TBR/U4.8.11-CG, TBW/U.1.1-CG, TBW/U.1.11-CG, TBW/U.2.1-CG, TBW/U.2.11-CG, TBW/U.3.1-CG, TBW/U.3.11-CG, TKK/U.1.1-CG, TKK/U.1.11-CG, TKK/U.3.1-CG, TKK/U.3.11-CG, TKM/U.1.1-CG, TKM/U.1.11-CG, TKM/U.3.1-CG, TKM/U.3.11-CG, TLM/U.1.1-CG, TLM/U.1.11-CG, TLM/U.2.1-CG, TLM/U.2.11-CG, TLM/U.3.1-CG, TLM/U.3.11-CG, TR/U.1.1-CG, TR/U.1.11-CG, TR/U.2.1-CG, TR/U.2.11-CG, TR/U.3.1-CG, TR/U.3.11-CG, TSM/U.2.1-CG, TSM/U.2.11-CG, TSN/U.2.1-CG, TSN/U.2.11-CG		

free@home

The following tables give an overview of the free@home tooling offered by ABB.

Mobile Apps

The following apps can be used on your smartphone or tablet and some also on the laptop.

Tool Name	Usage	Price	More Information / Download
free@home	<p>This Smart Home app makes it possible to configure and operate your free@home system. Whether blinds, lights, heating, air conditioning, door communication or light scenes. You can call up all functions individually - whether via switch, voice control or app from your smartphone and tablet. This allows you to conveniently operate your home from anywhere in the house or anywhere in the world. Most functions can be controlled through the Widget, not requiring to call up the free@home App. Local use and remote control via myABB Living Space is safe thanks to the best point-to-point encryption.</p> <p>Supported Products: free@home®, secure@home portfolio</p>	Free of charge	<p>App Store (ABB Version) Google Play (ABB Version) App Store (BJE Version) Google Play (BJE Version)</p> <p>How-to video</p>
free@home® Next	<p>One app for the control of free@home®, free@home® Wireless and free@home® flex.</p> <p>This app enables the programming and operation of your free@home system. Whether blinds, lights, heating, air conditioning, scenes, time programs, Philips Hue or Sonos devices: All functions of your free@home system can be controlled via this app.</p> <p>Note: This app only works with a ABB-free@home® Smart Home System with an installed firmware version 2.5.0 or higher</p> <p>Supported Products: free@home®, free@home® Wireless, free@home® flex portfolio</p>	Free of charge	<p>App Store (ABB Version) Google Play (ABB Version) App Store (BJE Version) Google Play (BJE Version)</p> <p>ABB Website</p> <p>Introduction video</p>

Door Entry Systems

The following tables give an overview of the Door Entry Systems tooling offered by ABB.

Mobile Apps

The following apps can be used on your smartphone or tablet and some also on the laptop.

Tool Name	Usage	Price	More Information / Download
Welcome	Experience the door communication of your Welcome system on your smartphone or tablet! Never miss a door call. With the Welcome app all calls are transferred directly to your mobile device. You can see and hear who is at your door via Wi-Fi network or remotely on 3G/4G (or higher) networks. Missed visitors are recorded with picture and date and can be called up at any time later. Simply connect the app to your Welcome system via the myABB-LivingSpace account. Information about the configuration of your IP-Gateway is shown in system manual.	Free of charge	App Store (ABB Version) Google Play (ABB Version) App Store (BJE Version) Google Play (BJE Version) System Manual

Note: ABB Fire Alarm Systems portfolio only available on German speaking markets.

Configurators

To adapt the product functions or specifications to your individual needs.

Tool Name	Usage	Price	More Information / Download
Fire Alarm System Configurator	Correct planning of the fire alarm system is very important for the early detection of fires. The ABB fire alarm technology configurator supports this process with the correct placement of detectors and alarm devices, the definition of the detector groups and the selection of the appropriate ABB limit value technology components. The configurator is based on the requirements of the DIN VDE 0833-2 standard.	Free of charge	To the Tool ABB Website (German)
Supported Products: ABB fire alarm portfolio: Alarm panels, automatic fire detectors, manual call points, signalling devices
