

Care Services

Start-up and Commissioning Services

Electrical infrastructure is one of the most important and costly capital investments made. Any interruption in service means lost productivity. Why trust your equipment with anyone other than ABB Electrification Services? ABB knows the equipment better than anyone.

Features and benefits

The ABB commitment

- Additional 12 months of standard warranty free of charge when ABB provides start-up and commissioning of ABB equipment

Proven experience

- Minimized early-term failures and lower total cost of ownership
- As the equipment manufacturer, ABB is uniquely positioned to address any concerns or issues that may arise
- ABB service engineers have “hands on” experience with commissioned equipment, as well as access to ABB engineers at the manufacturing facility
- ABB Electrification Services provides independent verification of equipment installation prior to energization
- Factory trained on Digital switchgear and protection and controls technology IEC 61850 and GOOSE messaging

Quality process

- Start-up personnel utilize standard routine and factory-developed processes to help ensure consistent quality across all product lines
- Test procedures performed according to factory specifications help ensure optimal equipment performance across all designed operating ranges

Simple, convenient interface

- Single-source provider for start-up and commissioning of ABB equipment — no third parties to coordinate

Start-up and Commissioning Services is a series of checks and tests performed on new equipment to help ensure proper installation and functionality.

Equipment serviced

- Medium Voltage Standard, Arc Resistant and Digital Switchgear
- Medium voltage switches
- Medium voltage vacuum circuit breakers
- Medium voltage starters
- Low Voltage Standard, Arc Resistant, and Intelligent Switchgear
- Low voltage circuit breakers
- Switchboards
- Automatic Transfer Switches
- Relays and meters
- Low and medium voltage motor control centers

ABB Electrification Services provides quality products, strong project management capabilities, broad service offerings and a history of recognized success in power, automation, and control systems.
